GENERAL PROGRAM REQUIREMENTS

INTRODUCTION

The Registration Guide has been prepared to assist the student with making important decisions while preparing his/her course of study each year. Whether the opportunity to make choices becomes an asset or a liability will be determined by the decisions made by the student after receiving the assistance of their parents, teacher, and/or counselor.

It is essential that course selections made are consistent with the student's educational and career goals and the graduation requirements. This should be done by assessing one's abilities, aptitudes, and interests. **Medina High School reserves the right to alter student schedules based on prerequisite requirements, standardized test performance and course availability.**

The Master Schedule for the year is developed after students make their choices during registration. It is during the time of the development of the schedule that some students will find that conflicts do arise and adjustments must be made. Counselors are available to students to assist when conflicts arise. Students are encouraged to use every possible resource in the high school to make wise course selections.

THE NUMBER OF SECTIONS OFFERED FOR A COURSE IS BASED ON YOUR REGISTRATION. **PLEASE REGISTER ACCURATELY.**

COURSE AVAILABILITY

All electives are subject to availability. Seniors are given first choice and then juniors, sophomores, and freshmen. Electives may be cancelled due to a lack of interest or for other academic needs that may arise as a result of scheduling, academic/OGT performance and/or building needs.

Every student will be given the opportunity to take all courses necessary for graduation during the regular school year. Should a student fail a required course, he/she will be placed on a waiting list. All students who need the course and are taking it for the first time will be given scheduling priority, regardless of grade level as it compares to those on the waiting list. Repeater students may find it necessary to take required classes in summer school in order to meet graduation requirements.

GRADUATION REQUIREMENTS

Total credits required for graduation = 21.

Specific graduation requirements:

Must pass all sections of state mandated tests.

• Language Arts.....	4 credits
• Mathematics.....	3 credits
• Science	3 credits
• Social Studies	3 credits
• Health.....	1/2 credit
• Phys. Ed.....	1/2 credit
• Electives.....	<u>7 credits</u>
TOTAL	21 credits

One credit or two half-credits of electives must include: Business/Technology or Fine Arts or Foreign Language.

FEES

There is a general fee of \$15 which includes agenda books, and misc. supplies. Whenever a fee or workbook is needed for a class, the estimated cost is listed in the course description. Class fees for materials and workbooks WILL BE invoiced to students and parents in the fall of each school year. Teachers will distribute consumable materials to students in class. In music, certain fees are paid to the parent group, which are separate from fees listed in this guide. In several courses, materials for projects are purchased by students on their own at different times throughout the course. These fees are not invoiced through the school. Please check each course description in order to calculate the total fees you may be charged. Fees for individual courses are subject to change. Due to manufacturing cost and changes in a course needs, fees could increase or decrease by the time the actual course is taken.

There is a full waiver of Pay to Participate fees for students on free lunch and one-half (1/2) waiver of the Pay to Participate fees for students on reduced lunch. Please bring your current official letter documenting your free or reduced lunch status when paying participation fees.

AP Fee Reduction Policy

The College Board provides a fee reduction per exam for students with acute financial need, such as students on the Free/Reduced lunch program.

OHIO DIPLOMA WITH HONORS for Classes of 2009 & 2010

According to standards set by the Ohio State Board of Education

To be eligible for the Ohio Diploma with Honors, the student who completes the COLLEGE PREPARATORY CURRICULUM in high school must meet any eight of the following nine criteria:

1. Earn four units of English.
2. Earn three units of mathematics that include Algebra I, Algebra II, and Geometry or complete a three-year sequence of courses that contain equivalent content.
3. Earn at least three units of Science that include instructional emphasis on the Physical, Life, Earth, and Space Sciences.
4. Earn three units of Social Studies.
5. Earn either three units of one Foreign Language or two units each of two Foreign Languages.
6. Earn one unit of Fine Arts.
7. Earn either one unit of business/technology and two additional units in (1) through (6) above or earn three additional units, in (1) through (6) above.
8. Maintain an overall high school grade point average of at least 3.5 on a four-point scale up to the last grading period of the senior year.
9. Obtain a composite score of 27 on the American College Testing (ACT) tests or an equivalent composite score of 1210 on the Scholastic Assessment Test (SAT) with no regard for its new writing portion. (This maintains the two scores' comparability as qualifying criteria).

OHIO DIPLOMA WITH HONORS FOR CLASSES 2011 & 2012

According to standards set by the Ohio State Board of Education

To be eligible for the Ohio Diploma with Honors, the student who completes the COLLEGE PREPARATORY CURRICULUM in high school must meet any eight of the following nine criteria:

1. Earn four units of English.
2. Earn four units of mathematics that include Algebra I, Geometry, Algebra II or equivalent and another higher level course or a four-year sequence of courses that contain equivalent content.
3. Earn at four units of Science that include physics and chemistry.
4. Earn four units of Social Studies.
5. Earn either three units of one Foreign Language or two units each of two Foreign Languages
6. Earn one unit of Fine Arts.
7. Maintain an overall high school grade point average of at least 3.5 on a four-point scale up to the last grading period of the senior year.

10. Obtain a composite score of 27 on the American College Testing (ACT) tests or an equivalent composite score of 1210 on the Scholastic Assessment Test (SAT) with no regard for its new writing portion. (This maintains the two scores' comparability as qualifying criteria).

VOCATIONAL EDUCATION DIPLOMA WITH HONORS

The student who completes an intensive vocational or technical education curriculum in the high school shall meet at least **nine of the following ten** criteria:

1. Earn 4 units of English, which may include one unit of applied communication.
2. Earn 3 units of mathematics, which will include Algebra and Geometry, or a sequence of courses that contains equivalent content.
3. Earn 3 units of Science that develop concepts for Physical, Life, Earth and Space Sciences.
4. Earn 3 units of Social Studies.
5. Earn 2 units of a Foreign Language or 2 units of business/technology; or 1 unit of each.
6. Earn 3 units in the student's vocational or technical education curriculum.
7. Earn 2 additional units in (1) through (6) or fine arts.
8. Maintain an overall high school grade point average of at least 3.5 on a four-point scale up to the last grading period of the senior year.
9. Complete a career passport that reflects achievement of the occupational proficiency benchmark established for the Ohio Vocational Competency Assessment or the equivalent; or
10. Obtain a composite score of 27 on the ACT or a composite score of 1210 on the Scholastic Assessment Tests (SAT) with no regard for its new writing portion. (This maintains the two scores' comparability as qualifying criteria).

STUDENT COURSE LOAD

All students must be enrolled in a minimum of six courses each semester. To meet the minimum graduation requirement of 21 credits, a student must earn a minimum 5-1/4 credits a year. Students should take additional courses based on their needs, time, and interests. It is the student's responsibility to insure that they are enrolled in a minimum of six classes each semester. This is very important for the student athlete. An athlete MUST be enrolled in a minimum of five full classes (not including physical education) in order to meet eligibility requirements for sports participation. Please refer to pages 13-14 of the Registration Guide. It is recommended that students and their parents consider the demands of the course description, students' abilities, outside interests, and extra-curricular programs when considering additional courses.

POST-SECONDARY ENROLLMENT OPTION PROGRAM

Presently throughout Ohio, high school students may attend a college or university of their choice under the Post-secondary Enrollment Option Program. This program is intended to provide expanded opportunities for appropriately qualified high school students. A few topics to keep in mind if you desire to explore such a position:

- 1) See your counselor as early as possible.
- 2) Understand your admission to such a program is strictly the decision of the college or university; admission requirements vary.
- 3) Deadlines are critical and vary from college to college.
- 4) Courses can be taken strictly for college credit (Option A), or college/high school credit (Option B). Under Option A students are financially responsible for all tuition and related costs, while under Option B the local school district pays tuition and related costs. See your counselor.
- 5) While Medina High will assist you in your efforts as you seek admission, we cannot be responsible for courses, work load, hours of instruction or transportation to such institutions of higher education.
- 6) Courses taken at the university for college/high school credit will be included in the student's grade point average; no weighted grades will be issued for these courses. This may affect your G.P.A. and rank.
- 7) The following table will be used to convert college hours of credit to Carnegie credit:

Semester Hours	Credit	Quarter Hours	Credit
5	1.0	7.5	1.0
4	.8	6.0	.8
3	.6	5.0	.67
2	.4	4.0	.53
1	.2	3.0	.4
		2.0	.27
		1.0	.13

- 8) High school credit can only be issued from an official college transcript. This may affect your participation in commencement exercises.
- 9) Be aware that university and high school calendars usually differ as far as exams, vacations, graduation dates, etc. Students may not arrive late to or leave early from high school classes because of conflicting college schedules.
- 10) Students participating in Post-secondary Enrollment are reminded that in any academic year only 7 credits (3.5 per semester) can be applied towards class rank.
- 11) Be aware that not all colleges accept PSEO credits as college credits.
- 12) Part-time PSEO students must maintain MHS attendance requirements.
- 13) NCAA Eligibility: Students are responsible for insuring their NCAA eligibility when taking PSEO classes. The high school sends many documents to the NCAA Clearinghouse concerning our curriculum and the course contents of classes offered at the high school. Student athletes may be asked to submit similar information about their college courses. The student is responsible for obtaining and submitting any requested information about college classes to the NCAA Clearinghouse. Failure to do so could result in the loss of college athletic eligibility.
- 14) Credits toward graduation: Students need to check with their counselor on a regular basis to be sure their graduation credits are accumulating appropriately. Each new semester, the PSEO student should make sure the high school has a copy of his/her college grades and current schedule and should see the counselor to check credits.
- 15) Distance Learning courses are PSEO classes at Medina High. See your counselor for details.

UNIVERSITY OF AKRON PSEO

Students who are interested in enrolling in PSEO through The University of Akron must meet the following eligibility requirements:

For 11th and 12th Graders:

1. 3.3 GPA and a 24 composite or a 1100 SAT composite or a 3.5 GPA
2. Seniors must have passed all parts of the Ohio Graduation Test.

For 9th and 10th Graders:

1. 3.75 GPA and 26 ACT or 1150 SAT composite
2. Letter of recommendation from a school instructor within the student's field of interest
3. Write an essay, 500 words or less, regarding why the student wishes to enroll in the class

Deadline to apply for fall and spring semesters is May 15 and October 15, respectively. Enrollment also requires a non-refundable application fee set by the university, a high school transcript, a College Prep Form, and the most recent report card.

CUYAHOGA COMMUNITY COLLEGE PSEO

Requirements:

1. Complete Enrollment Options Program Application
2. Successful completion of Tri-C's English and mathematics test at the Assessment Center on campus or ACT Test scores that are sent directly from the ACT testing center.
Deadline Date: May 12 and December 12 (suggested application date)
(30 days prior to the start of the semester)

11th and 12th Grade

1. Prefer a 3.00 GPA
2. Pass Tri-C's English and mathematics tests (at the Assessment Center on Campus) at the college level or ACT Test scores that are sent directly from the ACT testing center.

9th and 10th Grade

1. 3.5 GPA
2. Pass Tri-C's English and mathematics tests (at the Assessment Center on Campus) at the college level or ACT Test scores that are sent directly from the ACT testing center.

NOTE: Freshmen are limited to one course; sophomores are limited to two courses.

LETTER GRADES AND NUMERICAL EQUIVALENTS

A combination of letter grades and pluses and minuses shall be used to communicate academic progress of students.

Students shall be rewarded for taking more difficult courses; therefore, a differentiated grading system shall be used for Honors/Advanced Courses and Advanced Placement Courses. The following courses shall be weighted:

Honors/Advanced Courses

Spanish IV and V
German IV and V
French IV
Senior Art Portfolio
Honors Freshman Language Arts
Honors Sophomore Language Arts
Honors Juniors Language Arts
Honors Geometry
Honors Algebra II
Honors Pre-Calculus
Honors Biology
Honors Chemistry
Honors European History
Concert Choir.....
Symphonic Band.....
Symphonic Orchestra.....

} Senior Level Only

Advanced Placement Courses

AP Literature & Composition
AP Math I (AB)
AP Math II (BC)
AP Biology
AP Chemistry
AP Environmental Science
AP Physics B Science
AP Microeconomics
AP Political Science
AP Psychology
AP American History
AP Latin IV
AP French V

The following table shall be used when calculating grade point averages:

Course Grades	Regular Course Equivalent	Honor/Advanced Weighted Course Equivalent	Advanced Placement Weighted Course Equivalent
A+	2.165	2.415	2.665
A	2.0	2.25	2.5
A-	1.83	2.08	2.33
B+	1.665	1.915	2.165
B	1.5	1.75	2.0
B-	1.33	1.58	1.83
C+	1.165	1.415	1.665
C	1.0	1.25	1.5
C-	0.83	1.08	1.33
D+	0.665	0.915	1.165
D	0.5	0.75	1.0
F	0	0	0

Note: Physical Education courses are calculated at ¼ credit, hence ½ regular course equivalent.

GRADE POINT AVERAGES

A student's quarter grade point average will be calculated by taking the quarter grade for each course attempted. The appropriate point values for each grade earned for all courses are totaled. This total is divided by the number of course credits attempted. The final semester grades are used to calculate a student's accumulative GPA. The calculation process is the same using the final semester grades.

CLASS RANKING

1. A student is ranked numerically within his/her graduation class based upon his/her accumulative grade point average. The accumulative GPA is based upon semester grades. All members of a graduation class are ranked numerically based upon this accumulative GPA. Ranking is done twice each year, after each semester.
2. There are additional characteristics of Medina High School's system of weighted class rank that you should be aware of when selecting courses for the coming year. They are:
3. No more than 6 units of credit by correspondence may be applied toward a diploma at Medina High School unless approved through the Office of Student Services. Credit for correspondence courses is available for: a) courses that are not offered at MHS; b) courses that have been attempted by a student at MHS, but were failed; c) approval through the Office of Student Services. All correspondence courses will be posted toward graduation. MHS will transfer these courses using a letter grade if the student has completed the work under the guidance of a faculty member and the approval of the principal. Otherwise, correspondence courses will be transferred to MHS as Pass/Fail credit. Pass credits are not calculated into the GPA or class rank.
4. Home schooled credit may be transferred to MHS through the Office of Student Services. All home schooled credit will be transferred to Medina High School as Pass/Fail credit. Home schooled credits will be posted toward graduation but will not be calculated into GPA or class rank.
5. All irregularly earned credit will be transferred to MHS as regular course credits. This will include all Post Secondary credits and all summer school credits.
6. Students who transfer into Medina High School with existing credits will have the same credit, GPA, and class rank standards as current Medina High School students. Transferred credits will be adjusted to the guidelines stated above.
7. Class rank will be determined at the end of each semester for each graduating class beginning in the 9th grade year.
8. Final class rank standings will be calculated at the completion of the 8th semester.
9. After 7 semesters, the top 35 seniors will be determined by numerical GPA. After 8 semesters the top 10 seniors will be determined by numerical GPA. All will be honored at commencement. A student must be enrolled at Medina High School and have received grades from Medina High School during semesters 5 and 6 to be included in the top 35 and/or the top 10.
10. Seniors who receive the state awarded Honors Diploma will also be distinguished at commencement with a gold tassel.

GRADE PLACEMENT STANDARDS

- Tenth Grade A student will be advanced to the sophomore class--first semester, 10th grade--when he/she has earned a minimum of five (5) units in the 9th grade.
- Eleventh Grade A student will be advanced to the junior class--first semester, 11th grade--when he/she has earned a minimum of ten (10) units.
- Twelfth Grade..... A student will be advanced to the senior class--first semester, 12th grade--when he/she has earned a minimum of fifteen (15) units.

SCHEDULE CHANGES/DROPPING COURSES

1. Due to the careful guidance each student receives, very few schedule changes will be honored. Schedule changes of convenience cannot be accommodated. Students must have a minimum of six (6) courses each semester.
2. In general, schedule changes will be limited to Post-Secondary Enrollment schedule needs, academically misplaced students, and conflicts that occur in the master schedule. In moving from an honors or AP course to a regular course during mid-semester, no weighted grades will be transferred.
3. All schedule changes are subject to final review and approval by the administration.
4. Student-initiated schedule changes occurring after April 18, 2008 may result in a Withdrawn Failure (WF) **for the remainder of the course**. This policy includes second semester courses.

PARTICIPATION IN COMMENCEMENT EXERCISES & OTHER SENIOR ACTIVITIES

(as they pertain to academics)

Students may not participate in the Spring Commencement Ceremony unless they have met all of the following requirements:

1. Students must have earned a full twenty-one units and have passed successfully all the required courses for graduation.
2. Students must have satisfied all time and financial obligations they may owe the school.
3. Students must have passed all sections of the Ohio Graduation test.

JANUARY GRADUATION/EARLY COMPLETION

A student initiated request for January completion of high school must make application through his/her guidance counselor by April 18th of the junior year. A student desiring early completion is responsible for scheduling a minimum of 6 classes including the required courses for the first semester of his senior year. Early graduates are expected to finish the semester and take examinations. Any student not completing graduation requirements at the end of the first semester must attend as a full-time student the second semester (scheduled six classes). All diplomas will be issued in June. These students may receive their diplomas at the June commencement ceremony.

AUDITING AND REPEATING COURSES

Any student may audit a course, as room permits, if a more solid foundation is needed for future success. The student must attend all classes and complete all required work, including the semester exam. No credit is awarded and the transcript grade will be indicated as "AU". Audit request forms are available from a counselor, and must be completed during Spring registration.

Audits requested after the start of a semester must be teacher approved. A course begun as an audit may not be changed to a grade with credit.

FOR CLASSES OF 2009, 2010, 2011

Any student may repeat a course. Both grades will appear on the transcript and the higher grade will count toward the grade point average. Credit is only awarded once.

CLASS OF 2012

For courses that are required for graduation, students will repeat the course. For courses that are not required for graduation, students may repeat if space is available. In all cases, if the original grade was a passing mark, both grades will appear on the transcript and the higher grade will count toward the grade point average. Credit is only awarded once. If the original grade was a failing mark, both grades will appear on the transcript and both grades will count toward the grade point average. Credit is only awarded once.

Audits and repeats are contingent upon seat availability. It is the responsibility of the student to notify his guidance counselor of any audits and repeats. No audited or repeated classes will be calculated in co-curricular eligibility.

CO-CURRICULAR ELIGIBILITY

A student in grade 9, 10, 11, or 12 must be currently enrolled and must have been enrolled in school immediately preceding a grading period. Students must receive passing grades during that grading period in subjects that earn a minimum of 5.0 credits per year toward graduation. The eligibility or ineligibility of a student continues until the start of the 5th school day of the next grading period, at which time the immediately preceding grading period grades become applicable.

A student participating in any co-curricular activity **MUST** be enrolled in a minimum of five full classes each semester (not including physical education or any $\frac{1}{4}$ credit class) in order to meet eligibility requirements for sports and co-curricular participation. It is the responsibility of the student to verify his/her own eligibility.

In addition, a student must earn at least a 2.0 GPA in the preceding grading period to be eligible. Students who earn below a 2.0 GPA, but at least a 1.0 GPA, will be placed on academic probation. Once on academic probation, the student must meet with the athletic director and complete a probation sheet. In order to compete, the student must have all homework complete, behave properly in class, and maintain a GPA above a 1.0.

Credits earned in summer school do not count toward eligibility. Courses being repeated do not count for eligibility.

A student enrolled in the first grading period must pass 75% of his/her classes in the last grading period of eighth grade. After advancement from the eighth grade he/she must have, in the preceding grading period, a GPA of 2.00 to be eligible. If the student has between a 1.00 and 2.00 the student will be on probation. A GPA under 1.000 would make the student ineligible.

Because Medina High School awards credit at the completion of each semester, a student must always be aware of whether he or she is carrying at least a minimum course load. The student's course load must be distributed evenly over both semesters. It is important that a student is passing the equivalent of 1-1/4 credits per quarterly grading period, or 25% of the total of 5.0 credits needed to be eligible for the next grading period. (See example following.)

(Example 1) - Minimum Course Load (six classes taken)

<u>Course</u>	<u>Credit Earned per Grading Period</u>
Biology	1/4
Physical Education	1/8*
English	1/4
Social Studies	1/4
Math	1/4
Latin	1/4
Credits	1-1/4

This student is eligible because five courses were passed and a minimum of 1-1/4 credits were earned.

*For ease do not count Physical Education in the mix.

If a student takes 5 classes (not counting Physical Education) and passes all, the student is eligible. If the student takes only 5 classes and fails one, the student is ineligible. Students must take at least 6 courses per semester (counting Physical Education).

(Example 2 - Course Load Too Small)

<u>Course</u>	<u>Credit Earned per Grading Period</u>
Personal Typing	1/4
Band or Choir	1/4
Physical Education	1/8
English	1/4
Social Studies	0*
Credits	7/8 (* Student failed Social Studies)

This student is ineligible because only four courses were passed and he/she failed to earn a minimum of 1-1/4 credits (25% of 5.0 credits).

(Example 3 – Failed to Pass Minimum Number of Credits)

<u>Course</u>	<u>Credit Earned per Grading Period (six classes taken)</u>
Earth Science	1/4
Math	1/4
Art	1/4
Physical Education	1/8
Social Studies	1/4
English	0* (* Student failed English)
Credits	1-1/8

This student is ineligible because, while five courses were passed, he/she failed to earn a minimum of 1-1/4 credits (25% of 5.0 credits)

Medina High School requires that every student must carry a minimum course load of six subjects each semester. In most situations, if the above policy is adhered to and a student received passing grades in six courses, he/she should be eligible. However, Example 3 is a possible exception. If a student wishes to participate in co-curricular activities, more than the minimum number of courses should be scheduled. To be on the safe side, be sure to consult your counselor.

EDUCATIONAL OPTIONS

SERVICE LEARNING CREDIT

2 Semesters

This program provides students the opportunity to earn course credit by working as a teacher's aide in an elementary school classroom within the school district. Students seeking to earn Service Learning Credit will be placed with an elementary school teacher of their choice. Students must commit at least 160 hours of service in the elementary school classroom and submit a record of those hours to their appropriate guidance counselor. Students can earn 1 credit after 160 hours. Service Learning Credit is only open to Juniors and Seniors. Placements other than in an elementary school may also be considered. Students must complete an application and obtain approval from their parents and guidance counselor.

STUDENT COUNCIL SERVICE LEARNING CREDIT

2 Semesters

This program is designed to provide Student Council members the opportunity to earn credit by volunteering. Students seeking to earn Student Council Service Learning Credit will be placed with a Student Council advisor during their study hall period. Students will receive one credit hour for each 160 hours of service. Student Council Service Learning Credit is open to any Student Council member. It is the responsibility of the student to submit a record of hours worked. It should be noted that the study hall itself does not count toward service learning credit, it is the actual service work done during that time that will be counted.

WORK CREDIT

2 Semesters

This program is designed for students to receive credit for work experience. Seniors in good standing may be eligible to begin their work program during the last part of the day. Students in grades 9-11 must work after school or on weekends and can be eligible for credit with 1 credit earned after 160 hours. Up to two full credits may be earned per year. Students must meet all requirements of the program as outlined in the application. Work is described as either for pay or volunteer. Students must obtain approval from their parents and guidance counselor. It is the responsibility of the student to regularly provide pay stubs, proof of employment, and employment information to their counselor. **Failure of any class may result in the loss of senior work credit privileges.**

SENIOR RELEASE

Seniors who are in good academic standing, display proper citizenship qualities, and have no attendance or discipline problems may sign up for senior release. Senior release will be scheduled for the last period of the day (one period only). The administration reserves the right to revoke this privilege. **Senior release is not a guaranteed option. A student's course selections and the master schedule may result in a class being scheduled for the last period. Failure of any class may result in the loss of senior release privileges.**

SENIOR EARLY BIRD

Seniors may choose to enroll in classes offered before the regular school day, typically 6:30am – 7:20am. The length of the Early Bird student's school day is dependent upon the student's course selections and the master schedule. Therefore, dismissal time is dependent upon the scheduling of the student's six classes.

SENIOR LATE ARRIVAL

Seniors who choose late arrival will be scheduled for class's period 2 through the end of the school day. Only one period of late arrival will be granted and students may not have senior release at the end of the day. Students may have work credit, but working hours must be after school or on weekends. Seniors must still enroll in six classes per semester.

FOREIGN EXCHANGE STUDENT GUIDELINES

Foreign exchange students at Medina High School will be expected to follow the guidelines outlined in the student handbook for all Medina High School students. This includes the attendance policy and the conduct code. In addition to this, all foreign exchange students will take an appropriate Language Arts course. The remainder of the schedule will be determined by the student, the counselor, and the host parent(s). Foreign exchange students will be placed in the Junior class but will take classes on all grade levels and be extended Senior privileges (commons and Senior Release). Foreign exchange students will participate in the senior farewell ceremony, where they will be recognized for attending Medina High School. By administrative policy, Medina High School limits foreign exchange students to four each year.

The BENEFITS of taking an AP COURSE at Medina High School

Medina High School administers Advanced Placement exams in May of each year. There is a wide range of Advanced Placement courses reflected in each of the major discipline areas. Advanced Placement courses, because of their academic rigor, are assigned a weighted grade (A = 5.0, B = 4.0, C = 3.0, D = 2.0, F = 0). Acceptable AP scores may enable students to earn college credit by demonstrating competence in freshman college-level course work.

Students and parents should be aware of the demanding nature of AP courses. Expectations for these classes are extensive and some summer assignments may be required. Students are involved in college level activities, particularly in the areas of writing and test taking. Advanced Placement courses place a high degree of emphasis on the students' self-motivation, study skills, and the ability to self-direct their own learning. The AP teachers of Medina High School strongly recommend that students enrolled in AP courses take the AP exam.

- Most of the nation's colleges and universities, and colleges and universities in 24 other countries, grant students credit, placement, or both, for qualifying AP Exam grades.
- By saving time and money in college, you increase your options for dual majors, early graduation, travel abroad and elective courses that might not otherwise fit into your schedule or timeline.
- AP Exams give you an opportunity to gauge your readiness for college and to compare your abilities with high achieving students across the entire nation.
- Even if you take the college version of the AP course, your preparation for the AP Exam will give you the confidence that you can handle the work and give you some cushion as you adjust to college life.
- Students who earn a C or better (2nd semester) in an AP course AND take the AP COLLEGE BOARD EXAM will NOT be required to take the END of COURSE EXAM.
- AP courses at the high school are worth a weighted grade (A=5.0 B=4.0 C=3.0 D=2.0).
- By taking a total of five or more AP Exams of courses in which you earn a grade of B or better, you will earn the distinction of being a Medina High School AP Scholar and receive recognition.
- By taking the AP Exams, you help to validate the strength of our AP courses and generate data that assists in making program decisions.

PROGRAM OF STUDIES 2008-2009

CLASS OF 2012

REQUIRED COURSES

Appropriate Math Course by Recommendation
Freshman Level Language Arts or Honors Freshman Language Arts
\$Physical Earth Science, or \$Honors Biology**; Physical Education,

ART

Any intended art major needing or desiring a portfolio will be aided in assembling one.

Students who are on a Differentiated Educational Plan (DEP) will be assigned to an art advisor, who will assist each student with personalizing their art program throughout high school. DEP students are those who have been identified as being gifted in the visual arts.

DRAWING I
1 Semester
.50 Credit

Prerequisite: None
Fee: \$15.00

Begin to learn and explore the techniques necessary to become a better artist. A variety of drawing materials and experiences will be explored, including pencil, charcoal, pastels, ink, and scratchboard. Subjects will involve two-dimensional, three-dimensional, and fantasy sources. This course is a prerequisite for Drawing II.

DRAWING II
1 Semester
.50 Credit

Prerequisite: Drawing I
Fee: \$15.00

Expand on the ideas and techniques of Drawing I. Continue to use a variety of materials to create two-dimensional artwork. Create drawings that use combinations of ideas and materials. Suggested for the student who loves to draw, use value and color, and is thinking of a possible career in art.

PAINTING I
1 Semester
.50 Credit

Prerequisite: None
Fee: \$15.00

If you love color and paint, this is the class for you. Using watercolor, tempera, and mixed media, you will complete paintings in abstract and realistic styles. Subject matter may include landscape, floral, and still-life objects. You will learn glazing techniques, color theory, composition, and contemporary painters' styles. Some miscellaneous materials from home may be required.

PAINTING II
1 Semester
.50 Credit

Prerequisite: Painting I
Fee: \$15.00

Continue the exploration of color and paints. Create paintings using the traditional mediums of watercolor, acrylic and oil. Paint from different sources and work on developing a personal painting style. Some miscellaneous materials from home may be required.

CULTURAL ARTS
1 Semester
.50 Credit

Prerequisite: None
Fee: \$15.00

Experience art in its 3-dimensional form! Discover new materials and techniques as you explore various artists, cultures, and their history. A variety of materials will be explored including glass, tin, fibers (yarn/fabric), paper, etc. Some projects created may include mosaics from Italy and Greece, weavings and rug making from Turkey, piñatas from Mexico and many more. Throughout the semester, students may be required to bring various materials from home.

MIXED MEDIA ART
1 Semester
.50 Credit

Prerequisite: Cultural Arts
Fee: \$18.00

Expand on the techniques, design principles, and three-dimensional creative concepts acquired from the Cultural Arts class. Stained glass panels/window or sun catchers will be created this semester as well as figures in either tin/rivets and soldering or fabric/stitching. Many other advanced projects will also be created to enhance your 3-D skills while creating personal works of art. Students may be required to bring some miscellaneous materials from home.

CERAMICS
1 Semester
.50 Credit

Prerequisite: Gr. 11/12
Fee: \$15.00

Create ceramic projects using various methods of hand building and slip casting. Vessels, tiles, figurines, and sculptural designs will be featured. Different finish techniques for ceramics will be used including staining, painting, glazing, and underglazing.

PROCESS PORTFOLIO
1 Semester
.50 Credit

Prerequisite: See below
Fee: \$18.00

Art majors wishing to begin developing a portfolio for college, students who have been identified as gifted in visual arts (DEP) and those who have a strong understanding of the elements and principles of design are encouraged to take this course. A variety of art projects and medias will be explored using mainly two-dimensional processes. The types of assignments may include drawing, painting, printmaking, etc. Emphasis will be placed on following artistic procedures, creativity, and studio participation. Throughout the semester, students may be required to bring various miscellaneous materials from home.

Prerequisite: Dept./teacher recommendation; 10-11 standing.

SENIOR PORTFOLIO
1 Semester
.50 Credit

**Prerequisite: 2 art electives w/grades
of B or above/ Senior**
Fee: \$18.00

This course is for the serious art student who shows a strong understanding of the principles of design, and who has a high level of artistic talent. Students will have the opportunity to complete their portfolio for scholarship and college entry requirements. Guest speakers will discuss portfolio recommendations and careers in art. Two art electives (drawing & painting are recommended) are required for entrance into the course, or submission of a portfolio for review to obtain recommendation is required. Sketchbooks are required and must be purchased by the student, as well as a portfolio. (**Approximate cost for both items: \$15.00.**) One mat board for each student will be provided. If the student wishes all pieces to be matted, they must purchase the additional board.
***Offered 1st semester only.**

ANCIENT ART; MODERN ART
1 Semester
.50 Credit

Prerequisite: Gr. 11/12
Fee: \$15.00

The class will study major artists, art styles and movements throughout history. Students will gather information through lecture, slides, videos, and participation in various class activities. Instruction on taking slide tests for art history will be covered. Studio art projects (both two and three-dimensional) that reflect the artist or period studied will be part of the learning process. Students who need or want a fine arts credit, but aren't studio art oriented, would do well with this class. Art majors are strongly recommended to take the class. The class will be offered on a rotating basis with Ancient Art being offered one year and Modern Art the next. Ancient Art offered school year 2008-2009.

BUSINESS/TECHNOLOGY EDUCATION

INTRODUCTION TO BUSINESS

1 Semester

.50 Credit

Prerequisite: Gr. 9/10

Fee \$5.00

Provides a new approach for students to discover availability and usefulness of business subjects to their futures. The course will cover an introduction to such business activities as recordkeeping, banking, and economic understanding. Also, topics dealing with career exploration, savings, and investing, money management, income taxes, insurance, consumer information, credit, and business for personal use will be included. Introduction to Business will be offered during the odd number school years, it would not be offered during the 2008-2009 school year but will be offered again in the 2009-2010 school year, **Workbook fee may be applied.**

KEYBOARDING WITH MICROSOFT TECH.

1 Semester

.50 Credit

Prerequisite: None

Fee \$5.00

Students will learn to operate the alphabetic and numeric keyboards using the traditional touch method. They will be introduced to Microsoft Word, Excel, and Desktop Publishing. Integration will take place through mastering the correct format for documents required in other classes. Some of these documents include, but are not limited to, personal business letters, reports in MLA style, and basic spreadsheets. Successful completion of this course will result in skills that the student will be able to use throughout his/her education and career.

WORD PROCESSING I

1 Semester

.50 Credit

Prerequisite: Keyboarding

Fee \$5.00

This course is designed to familiarize the student with the ease and flexibility of Microsoft Word version 2002, which empowers users to discover and use more of the new and existing functions of this application. This goal is achieved through new tools such as Task Panes and Smart Tags that are shared throughout the Microsoft Office suite; as well as through improved technology for working with formatting, styles, bullets, tables of contents, academic writing of letters, reports, forms, and term papers. Students will also learn features of the Internet and graphics by creating a desktop publishing holiday book project.

WORD PROCESSING II

1 Semester

.50 Credit

Prerequisite: Word Processing I

Fee: \$5.00

This course begins where Word Processing I left off using Microsoft Word. The student will become more proficient in using menu and dialog boxes as well as Word toolbars. The student will complete challenging assignments using charts, tab alignment, advanced graphics, sort and calculate indexes and table of contents, merging from documents and mailing labels. Additional projects include: creation of HTML web designs and how to use the Internet as an educational tool to compile an MLA style research project which will correlate the Internet with word processing.

BUSINESS TECH I
1 Semester
.50 Credit

Prerequisite: Keyboarding
Fee \$5.00

Students will work with the Microsoft Office XP operating software introducing: Microsoft Excel, PowerPoint, and Publisher. They will utilize Microsoft PowerPoint to learn to organize, design, and deliver powerful presentations. Integration of the Internet will enable the student to create impressive desk-top publishing projects to use in all aspects of education from formal reports to personal card and invitation design. Students will also be introduced to basic HTML webpage creation. This class is essential for the college bound or anyone who plans on pursuing a competitive business career.

BUSINESS TECH II
1 Semester
.50 Credit

Prerequisite: Business Tech I
Fee: \$5.00

Students who enjoyed the projects and software of Business Technology I will gain the benefit of creating advanced projects in this course. Students will further develop their skills in Microsoft Excel, PowerPoint, HTML Webpage design and Word. Students will also build a virtual computer using the Internet and presentation tools. All career and college bound students will benefit from this course; especially those studying advertising, business, marketing and public relations. Business Tech II will be offered during the odd number school years, it would not be offered during the 2008-2009 school year but will be offered again in the 2009-2010 school year.

PERSONAL FINANCE
1 Semester
.50 Credit

Prerequisite: Gr. 10/11
Fee \$5.00

This course introduces students to the world of money management and finance. Students will learn what to do with their money by learning about their financial options and responsibilities--how to enjoy their financial resources today and be financially secure tomorrow. They will also learn about financial issues concerning their immediate futures such as: financial options for college, credit cards, and loans. They will find out how businesses manage their finances, and learn how important wise financial management is to personal and business success. Technology will be used to help the student manage finances in new, quicker, and more accurate ways through computer-based financial planning activities.

ACCOUNTING I
1 Semester
.50 Credit

Prerequisite: Gr. 10/11/12
Fee \$5.00
Workbook \$18-20

This semester course is designed to give students complete knowledge of the accounting cycle for a sole-proprietorship service business. The student will learn the laws of debit and credit, apply the accounting equation to the operation of the business, and they will learn to prepare accounting forms and financial statements. Through these introduction lessons the student will also acquire knowledge of many business and financial practices. The student will learn both manual accounting and computerized accounting (PeachTree, Excel) preparing them for further accounting courses and familiarizing them with bookkeeping practices that they will find useful throughout life. **Workbook required.**

ACCOUNTING II
1 Semester
.50 Credit

Prerequisite: Accounting I
Fee: \$5.00
Workbook \$18-20

A review and continuation of Accounting I, the students will apply the lessons learned in Accounting I, reviewing the concepts and applying the steps from the accounting cycle in other business organizations. Analysis of the financial statements and how they tie into business decisions in various organizations will be the focus of many lessons. Practice sets, problems and computer software will be used to assist the student in understanding and applying the lessons. This class will further prepare the student for college accounting and business courses. **Workbook required.**

BUSINESS MANAGEMENT
1 Semester
.50 Credit

Prerequisite: Gr. 11/12
Fee \$5.00

Advanced Business is a semester course designed to give the students an in-depth look at the ever changing world of business from the management perspective. Primarily a project based class in which students will develop an understanding of such management principles as; communication, decision-making, planning and strategic management, delegating responsibility and authority, working with others in groups, management styles, managing conflict, and motivation and leadership. This is an excellent class for preparing students for surviving in life, the business world, and also for college level business classes. Business Management will be offered during the odd number school years, it would not be offered during the 2008-2009 school year but will be offered again in the 2009-2010 school year.

FAMILY AND CONSUMER SCIENCES
(VOCATIONAL HOME ECONOMICS)

Family and Consumer Sciences encompasses the total well being of an individual as a responsible family and community member. Students need knowledge and problem solving skills to be able to live well in today's changing world. Many skills are taught and practiced in these courses to encourage positive relationships and to manage work and family responsibilities for the well being of self and others.

Available Courses (by grade level) in Family & Consumer Sciences

Freshman	Sophomore	Junior	Senior
Creative Sewing I	Creative Sewing I	Creative Sewing I	Creative Sewing I
	Creative Sewing II	Creative Sewing II	Creative Sewing II
	Creative Cooking	Creative Cooking	Creative Cooking

Projects: Materials for projects are purchased by students on their own at different times throughout a course. These fees are not invoiced through the school.

CREATIVE COOKING
1 Semester
.50 Credit

Prerequisite: Gr. 10/11/12
Fee \$15.00

Explore food choices and guidelines for healthy nutrition. This class will cover a wide variety of recipes. You will be exposed to basic knowledge of kitchen equipment and food preparation techniques. Some of the recipes will be appetizers, quick breads, yeast breads, cookies, cakes and casseroles, soups and salads.

CREATIVE SEWING I
1 Semester
.50 Credit

Prerequisite: None
Fee: \$15.00

Learn the basic techniques necessary to complete several sewing projects. Students will learn how to make pillowcases, 9-patch pillows, pajama bottoms, project with a zipper, simple quilts and messenger bags or purses. Many different decorative stitches and sewing skills are taught with step by step instruction to personalize the projects. Students are required to purchase materials and supplies of the projects, limited by a student's budget.

CREATIVE SEWING II
1 Semester
.50 Credit

Prerequisite: See below
Fee: \$15.00

This course is for the serious student interested in continuing with learning techniques necessary for more tailored garments, quilts and home decorative projects. Students will learn to make a complete outfit, a more complicated quilt or choose home decorative projects. Material and supplies are the student's responsibility and will be limited by their personal budget.

Prerequisite: 10/11/12; Sewing I and "B" or higher

FOREIGN LANGUAGES

OUR PHILOSOPHY

We believe that the study of foreign languages is essential for citizens in a global society. The foreign language program integrates elements of language systems and communicative functions, nurtures acceptance and appreciation of other cultures, and promotes understanding through life long learning.

The Foreign Language Department believes that students should begin the first year of a language by the 9th grade. For the more able, it will provide the opportunity to take a longer sequence of languages to attain a greater level of proficiency and fluency. For the less able, it would provide the opportunity to retake a language if needed and still complete two years. NOTE: Many colleges are now recommending that students take at least three years of a language.

One of the criteria for the Ohio Diploma of Honors is that the student must take three years of one foreign language or two years each of two foreign languages.

EXCHANGE STUDENTS who select to take a course in their own language may be required to do extra work.

Medina High School offers four foreign languages:

FRENCH 1	GERMAN 1	LATIN 1	SPANISH 1
FRENCH 2	GERMAN 2	LATIN 2	SPANISH 2
FRENCH 3	GERMAN 3	LATIN 3	SPANISH 3
HONORS FRENCH 4	HONORS GERMAN 4	AP LATIN 4	HONORS SPANISH 4
AP FRENCH 5	HONORS GERMAN 5		HONORS SPANISH 5

FRENCH I
1 Year
1 Credit

Students begin their language study with basic conversation, vocabulary, and grammar study. Activities are designed to develop listening, speaking, reading, and writing skills. The culture and customs of French-speaking countries are introduced.

Fee for supplemental materials: approximately \$35.00.

FRENCH II
1 Year
1 Credit

Prerequisite: A “C” in French 1 or teacher recommendation

French II is a continuation of first year activities. Students are expected to use the target language as much as possible.

Fee for supplemental materials: approximately \$35.00.

FRENCH III
1 Year
1 Credit

Prerequisite: A “C” in French 2 or teacher recommendation

The third year class will be conducted in the target language. Students will develop advanced listening, speaking, reading and writing skills. Students will acquire advanced grammatical constructions. Authentic literary works will be introduced.

Dictionary required. (Class approved dictionary may be purchased from HUB).

Fee for supplemental materials: approximately \$15.00.

HONORS FRENCH IV
1 Year
1 Credit

Prerequisite: A “C” in French 3 or teacher recommendation

The fourth year class will be conducted entirely in French. Students will refine listening, reading, speaking and writing skills. Students will continue to develop advanced grammatical constructions. Students will read a variety of authentic materials from literary works to newspaper and magazine articles.

Dictionary required. (Class approved dictionary may be purchased from HUB).

Fee for supplemental materials: approximately \$35.00.

AP FRENCH V
1 Year
1 Credit

Prerequisite: A “B” in French 4 or teacher recommendation

This course will emphasize the use of French for active communication. Course work will help the student develop the ability to understand spoken and written French in a variety of contexts including audio and video recordings, newspapers, magazines, and literary texts. Students in this course will develop the ability to express themselves with reasonable fluency and accuracy in both written and spoken French. This course will help the student develop language skills that can be used in various activities and disciplines. All class work will be conducted exclusively in French. Students are strongly urged to take the AP exam. This course follows the outlined AP curriculum published by the College Board for AP French Language.

Fee for supplemental materials: approximately \$35.00.

Any student enrolled in an AP course may take the AP exam in May for which college credit can be granted with a passing score of 3-5. Fee for the examination is traditionally \$84.00 and is in addition to the regular course fee. It is recommended that all students attempt the AP exam.

GERMAN I**1 Year****1 Credit**

Students begin their language study by imitating foreign sounds. Conversations, paragraphs, and pattern drills introduce the necessary vocabulary and grammatical structures from which listening, speaking, reading, and writing skills eventually develop. The customs and culture of the target country also are introduced.

Fee for supplementary materials: no more than \$27.00.

GERMAN II**Prerequisite: A "C" in German 1 or teacher recommendation****1 Year****1 Credit**

A continuation of the first year activities with added emphasis on reading and writing.

Taking the National German Test is strongly recommended. Approximate fee of \$5.00 for the test.

Fee for supplementary materials: no more than \$15.00.

GERMAN III**Prerequisite: A "C" in German 2 or teacher recommendation****1 Year****1 Credit**

The student will use previously learned grammar and be introduced to advanced grammar. Emphasis will be on improving oral, listening, reading, and writing skills in German. The class will be supplemented by videos and CDs, and outside reading. National German Exam is strongly recommended. **Student must have the required dictionary.** . (Class approved dictionary may be purchased from HUB).

Fee for supplementary materials: no more than \$40.00.

HONORS GERMAN IV**Prerequisite: A "C" in German 3 or teacher recommendation****1 Year****1 Credit**

The student will continue polishing and refining communication skills and studying advanced grammar. Youth literature will be introduced as well. Some time will be devoted to preparation for the college entrance exams. National German Exam is strongly recommended. **Dictionary is required.** . (Class approved dictionary may be purchased from HUB).

Fee for supplementary materials: approximately \$30.00.

HONORS GERMAN V**Prerequisite: A "C" in German 4 or teacher recommendation****1 Year****1 Credit**

This course will be geared toward the enthusiastic student interested in acquiring fluency in the language. Classic and contemporary issues and literature will be covered, to refine and expand grammar and communication skills. The class will be supplemented by videos, CDs and authentic reading materials. Time will be devoted to preparation for the AP Exam and college entrance exams. **Dictionary required.** . (Class approved dictionary may be purchased from HUB).

Fee for supplementary materials approximately \$30.00.

LATIN I
1 Year
1 Credit

This course will acquaint the student with basic Latin grammar and give the student an insight to Roman culture and its contribution to our civilization.

Dictionary required. . (Class approved dictionary may be purchased from HUB).

Fee for National Latin Exam: approximately \$5.00.

LATIN II
1 Year
1 Credit

Prerequisite: "C" in Latin 1 or teacher recommendation

The student will finish the study of Latin grammar and begin reading Latin literature. The course work will be supplemented by a study of Latin culture in the area of the military, the family, and social events. **Dictionary is required.** . (Class approved dictionary may be purchased from HUB).

Fee for National Latin Exam: approximately \$5.00.

LATIN III
1 Year
1 Credit

Prerequisite: "C" in Latin 2 or teacher recommendation

Time in this class will be devoted to the reading of the classics in their original form with discussion as to the literary form and content. After completing a review of second year forms and grammar, the students will acquire the complex grammatical constructions (including all subjunctive uses and conditions). The students will read selected prose authors such as Cicero, Sallust, Cato and Varro. The students will also learn the rudiments of Latin poetry, scansion, and literary devices as they read Ovid's *Metamorphoses*. The year concludes with a brief survey of literary history from the Early Age and Golden Age of Latin Literature, followed by an exploration of Greek derivatives.

Fee for National Latin Exam: approximately \$5.00.

AP LATIN IV: Vergil
1 Year
1 Credit

Prerequisite: "B" in Latin 3 or teacher recommendation

Time in this class will be devoted to the reading of the classics in their original form with discussion as to the literary form and content. The year begins with a grammatical review of all Latin morphology and constructions. Interspersed in this will be further study of the literary history of the Augustan Age and the Silver Age. Excerpts from the Silver Age authors, especially Pliny's *Letters* will be read and discussed. Following the first quarter review, students will read AP Latin Vergil syllabus of the *Aeneid* as well as the English of the text in its entirety. Students will also read the *Iliad* in English as well as excerpts in *Odyssey*. Students will combine their study of history with literary discussions. Students are *strongly urged* to take the AP exam. This course follows the outline published by the College Board for AP Latin.

Fee for supplemental materials and National Latin Exam: approximately \$40.00.

Any student enrolled in an AP course may take the AP exam in May for which college credit can be granted with a passing score of 3-5. Fee for the examination is traditionally \$84.00 and is in addition to the regular course fee. It is recommended that all students attempt the AP exam.

SPANISH I**1 Year****1 Credit**

The student will comprehend and participate in basic conversations, interpret simple reading passages, develop listening skills and express themselves in writing in Spanish. The focus of this course will be on the acquisition of vocabulary. Pronunciation will be stressed. In addition, introduction and insight to the Hispanic culture will be covered. This course is the foundation for future language study.

Fee for supplementary materials: approximately \$35.00 for workbook and/or readers.

SPANISH II**Prerequisite: A "C" in Level 1 or teacher recommendation****1 Year****1 Credit**

Using the foundation acquired in Spanish 1, the student will further develop their skills in reading, writing, listening to and speaking in Spanish. While the importance of vocabulary acquisition is still stressed, students will expand their ability to use this vocabulary within more complex grammatical structures to express themselves in Spanish. There will be continued study of the Hispanic culture and customs. Spanish II continues to prepare students for upper level language study.

Fee for supplementary materials: approximately \$35.00 for workbook and/or readers.

SPANISH III**Prerequisite: A "C" in Level 2 or teacher recommendation****1 Year****1 Credit**

In this upper level class, the Spanish student will concentrate on improving speaking, listening, reading, and writing proficiency in the language. The class will be conducted in the target language and will center on the practical use of the language. Advanced grammatical concepts and constructions will be introduced and practiced. Class work will be supplemented with cultural studies using authentic materials.

Dictionary required. . (Class approved dictionary may be purchased from HUB).

Fee for supplementary materials: approximately \$15.00.

HONORS SPANISH IV**Prerequisite: A "C" in Level 3 or teacher recommendation****1 Year****1 Credit**

This level of Spanish will be geared toward the enthusiastic student interested in acquiring fluency in the language. Students and teachers alike will communicate in Spanish. The student will apply advanced speaking, listening, reading and writing skills to the practical use of the language within a cultural context. The class devotes time to reading a variety of selections such as short stories, poetry, and informational texts. Seniors in Spanish IV will be prepared to take college level entrance exams.

Dictionary required. . (Class approved dictionary may be purchased from HUB).

Fee for supplementary materials: approximately \$35.00.

HONORS SPANISH V
1 Year
1 Credit

Prerequisite: A "C" in Level 4 or teacher recommendation

This final and highest level of Spanish is intended for the student who desires to polish and refine their communication skills in reading, writing, listening and speaking. Advanced grammar concepts will be discussed in depth. Classic and contemporary Hispanic issues and literature will be covered. The class will be supplemented by videos, CDs, and authentic reading materials. Time will be devoted to preparation for the AP Exam and college entrance exams.

Dictionary required. (Class approved dictionary may be purchased from HUB).

Fee for supplementary materials: approximately \$35.00.

HEALTH

HEALTH
1 Semester
.50 Credit
(Health Retake)

Fee: \$2.00

This course deals with the following topics: Healthy Relationships, Substance Abuse, Systems of the Body, Nutrition, First Aid/Safety, Stress, Sexuality, STDs and AIDS, CPR, and skills needed to be successful at Medina High School. **Fee for CPR is \$2.00.**

PHYSICAL EDUCATION

PHYSICAL EDUCATION
1 Semester
.25 Credit

The Physical Education program is designed to encourage students to experience aspects of physical fitness, wellness and a variety of recreational and sport activities. These activities include team/ individual sports as well as aerobic and anaerobic fitness. The main focus will be on: knowledge of fitness: aerobic activities, muscular strength, and muscular endurance. All students will participate in pre and post fitness testing.

Team sports help to develop an individual's ability to work with others and to increase the student's knowledge of the sport. Examples of team sports may include but are not limited to badminton, basketball, volleyball, soccer, tennis football, and other miscellaneous games. Aerobic and anaerobic fitness help to develop cardiovascular endurance and muscular strength. Classroom time may be used to teach and discuss important health and wellness topics.

Courses are a semester in duration and will cover the areas as outlined in the course descriptions. A semester of successful class participation earns the student one-fourth (1/4) unit of credit. Students are required to wear appropriate clothing for each class. Swimming classes require a one-piece swim suit for girls and swim trunks (no speedos) for boys. Minimum requirement for graduation is one-half (1/2) credit of physical education, or two semester courses.

A PE 1 class must be taken before taking PE2 or Advanced Fitness.

PE 1 may be repeated for credit if a student fails.

PE 1 – Introduction to fitness, team and individual sports.

PE 2 – Students will create and implement a personal fitness plan. Advanced strategies will be used in individual and team sports.

Advanced Fitness – Fitness, wellness, and nutrition will be discussed. Students will create and implement a personal fitness plan. This is a class designed for the students that wants to improve their overall fitness level.

A PE 1 class must be taken before taking PE 2 or Advanced Fitness.

INDUSTRIAL ARTS/TECHNOLOGY

The Industrial Arts/Technology courses are designed to give the student basic knowledge and skills for working with tools, materials, and processes that may apply to future life skills. These courses are open to all students and are designed to meet the needs and interests of both male and female students.

**VIDEO PRODUCTION
TECHNOLOGY**
1 Credit
1 Year

**Prerequisite: Gr. 11/12
Parent & Teacher Permission
Fee \$15.00**

This year long course has been designed for students with an interest in television broadcasting and electronic news gathering. The students involved in this class will be responsible for writing, directing, and producing the morning announcements presented to the students and staff of Medina High School through closed circuit television and to the global community through the web. Students will be responsible for a variety of activities including: on-air talent, production, directing, audio engineering, graphics composing, camera operating, script writing, and general research. Students should have a clear understanding that there are 6 hrs of volunteer work per semester for the local cable station. There is also a large amount of after school time required for the individual videotaping assignments and homework. Selections are determined through extra curricular participation, class standing, and GPA. Students will be provided with 2 Mini DV video tapes through course fees.

DRAFTING, ENGINEERING I
1 Year
1 Credit

**Prerequisite: None
Fee: \$8.50**

This introductory course provides the student with the fundamentals of industrial drawing. Topics covered include lettering, geometric construction, single-view drawings, multi-view drawings, sketching, working drawings, pictorial drawings, sectioning, auxiliary views, and simple house plans. Accuracy and neatness are stressed. This course is a must for prospective engineering students, both male and female. **Students are required to provide their own drafting tools, or may purchase a drafting kit with an approximate cost of \$23.00.**

DRAFTING, ENGINEERING II W/ AUTOCAD
1 Year
1 Credit

**Prerequisite: Drafting I
Fee: \$8.50**

A technical course for the prospective draftsman or engineer, using traditional drafting methods along with computer aided design. Topics include threads and fasteners, surface treatment of metals, properties of metals, and manufacturing processes. **Drafting tools required.**

ARCHITECTURAL DRAWING & DESIGN
1 Year
1 Credit

**Prerequisite: Drafting I & II
Fee: \$10.00**

This course provides an introduction to the field of architecture. Areas of study will include a history of architectural styles, residential design and construction, electrical and mechanical systems, and site development. Students will be trained in both traditional and computer-aided drafting techniques with the skills necessary to complete required drawings. **Drafting tools required.**

INTRODUCTION TO INDUSTRIAL TECHNOLOGY**1 Semester**
.50 Credit**Prerequisite: None****Fee: \$15.00**

Students will learn to utilize basic hand tools and machines to build an understanding of technological systems and processes. Hands-on projects will develop safe practices with shop equipment and provide a foundation for exploring career opportunities in a technological field.

CONSTRUCTION & PRODUCTION TECHNOLOGY**1 Semester**
.50 Credit**Prerequisite: Intro to Ind.****Tech. or
Instructor Permission****Fee: \$15.00**

This course provides students exposure to site building construction practices and manufacturing-based production. Students will learn about basic home construction and develop general home improvement skills. Production technology will be explored through a student-developed production product. **(Note: Students have the option of purchasing clock movements to complete the class's mass production project at a cost of \$30).**

DIGITAL GRAPHIC COMMUNICATION**1 Semester**
.50 Credit**Prerequisite: None****Fee: \$10.00**

This introductory course will focus on the study of digital photography and its uses in home and industry. Areas of concentration will involve Photography, Photoshop (photo manipulation), Freehand (illustration), Dreamweaver (web page design), Fireworks (web graphics) and PageMaker (page layout). Assigned projects will be required in each area.

POWER TECHNOLOGY**1 Semester**
.50 Credit**Prerequisite: None****Fee: \$15.00**

This course will introduce the basic concepts in Energy, Power, and Transportation. Hands-on activities will focus on CO2 vehicles, model-rocket construction, and electronic circuits. Students will also design and construct a mousetrap-powered vehicle. **In addition students will be required to purchase a model rocket and engines at an approximate cost of \$15.00.**

WEB PAGE PRODUCTION**1 Semester**
.50 Credit**Prerequisite: Gr. 10/11/12**

This course involves many aspects of web page design. Students may also be required to work to promote, maintain, and update the Medina High school web site. Areas of concentration will involve Photography, Photoshop (photo manipulation), Freehand (illustration), Dreamweaver (web page design), Flash, and Fireworks (web graphics). Assigned projects will be required in each area.

LANGUAGE ARTS

To provide instruction according to individual differences, the department has assigned a level of difficulty to each course. These levels describe the degree of challenge and skill as well as materials used in the courses; they do not describe the students electing them.

Placement and Credit Notes

- 1) **No students** sign up for Fundamental English classes. Appropriate placement into those classes will be determined by English department members and/or guidance counselors. Any students who feel they may be best placed in these classes should sign up for the regular grade level course. If other placement is determined, the students will be moved from the grade level course into the alternative course better suited to their needs.
- 2) Courses identified as electives **will count** toward the four English credits needed for graduation even if those courses are taken prior to the senior year. Please note, Yearbook, Drama, and Journalism are not recognized by many colleges as English credits.
- 3) Unless otherwise indicated in the course descriptions or prerequisites, electives are available to sophomores, juniors, and seniors.
- 4) **ALL STUDENTS** must pass either Advanced Composition or AP Literature & Composition course before being eligible for graduation from Medina High.
- 5) Make informed choices. Read all course descriptions and prerequisites completely and carefully before registering for courses. You will be held accountable for **all** information, deadlines, application procedures, and policies for every class you take.

CONTINUING ENGLISH 10-12
Replacement credit

Prerequisite: Dept. placement

This course is designed to help the student with specific areas of difficulty experienced during the previous year's language arts class. Once a student passes the required assignments, the student will be granted credit for that previous year's course. This course is taken concurrently with the student's appropriate grade level language arts course. This class is pass/fail. Students do not register for this course; they are assigned by the department chair and/or their guidance counselor.

FUNDAMENTAL ENGLISH 9, 10, 11, 12
1 Year
1 English credit

Prerequisite: Dept. placement
Fee: \$10.00

These courses are designed for students in need of remedial work in reading skills as well as oral and written expression, with instruction and materials appropriate to the needs of the individual students enrolled. The typical student placed in these classes is one who has demonstrated requisite skills for the OGT but who is not yet ready for placement in the standard grade level English course. The course may be repeated for credit. Students do not register for this course; they are assigned by the English department. Fees may apply.

FRESHMAN LANGUAGE ARTS
1 Year
1 English credit

Prerequisite: Gr. 9

This course will follow the curriculum standards and indicators as outlined by the state. It will include a study of the writing process, writing applications, writing conventions, research, communication, acquisition of vocabulary, the reading process, nonfiction reading, and literary reading. Reading selections will include *Romeo and Juliet*, and may include titles such as *Great Expectations*, *Night*, *Fahrenheit 451*, *Cold Sassy Tree*, and *The Watsons Go to Birmingham*. Writing applications will include a narrative essay, an informational report, a persuasive essay, and a descriptive essay. Students will also write literary responses, business letters, and journals or reflections. Communication applications will include an informational presentation, a descriptive presentation, and a persuasive presentation.

HONORS FRESHMAN LANGUAGE ARTS
1 Year
1 English credit

Prerequisite: Gr. 9
Teach. Recommendation

This is a challenging course for the student who is willing to complete more course work at a more complex level. As a result, honors courses earn a weighted grade. This course will present word study and reading strategies including source evaluation. It will also explore authors' techniques during literary studies, which will include several novels, plays and short stories. Selections will include *Romeo & Juliet* and may include *A Midsummer Night's Dream*, *Great Expectations*, *Fahrenheit 451*, *Cold Sassy Tree*, and *Night*. Also, students will examine and use various writing processes to create several structured documents. These will include several essays: narrative, informational, persuasive and descriptive. Other writing experiences will include literary responses, business letters and research. The course will explore writing conventions including spelling, grammar and usage. Students will deliver four speeches or oral presentations including an informational and a persuasive speech. The course includes poetry study and writing and a unit on advertising techniques. There will be a summer reading and writing assignment due in August. Failure to complete the summer assignment will have a negative impact on the first quarter grade but will not be grounds for dropping the course.

SOPHOMORE LANGUAGE ARTS**Prerequisite: Gr. 10****1 Year****1 English credit**

This course will follow the curriculum standards and indicators as outlined by the state. It will include a study of the writing process, writing applications, writing conventions, research, communication, acquisition of vocabulary, the reading process, nonfiction reading, and literary reading. Reading selections will include *To Kill a Mockingbird*, *Taming of the Shrew* or *Macbeth*, and *Antigone*. Writing applications will include a narrative essay, an informational report, a persuasive essay, and a descriptive essay. Students will also write literary responses, business letters, and journals or reflections. Communication applications will include an informational presentation, a descriptive presentation, and a persuasive speech.

HONORS SOPHOMORE LANGUAGE ARTS**Prerequisite: Gr. 10****1 Year****1 English credit****Teach. Recommendation****Fee: \$15-20**

This is a challenging course for the student who is willing to complete more coursework at a more complex level. As a result, honors courses earn a weighted grade. Skill development in critical thinking, reading comprehension, and literary analysis will be encouraged through an intensive study of various literary works in World Literature. Students will examine writing technique through careful reading of plays, novels, short stories, non-fiction, and poetry. Selections may include *To Kill a Mockingbird*, *All Quiet on the Western Front*, *Things Fall Apart*, *The Chosen*, *The Joy Luck Club*, *Macbeth*, *Oedipus the King*, and "*The Things they Carried*". Students will also examine the use of various writing processes to create structured documents including a narrative/ descriptive/ reflective essay, literary analysis, informational essay, persuasive essay, research writing, personal response journals, and functional documents such as business letters. Students will deliver formal and informal oral presentations including an informational/ persuasive speech. In addition, the course covers spelling, vocabulary, grammar, and usage. There will be a summer reading and writing assignment due in August. Failure to complete the summer assignment will have a negative impact on the first quarter grade but will not be grounds for dropping the course. There may be a fee attached to this course.

JUNIOR LANGUAGE ARTS**Prerequisite: Gr. 11****1 Year****1 English credit**

In addition to meeting state curricular requirements, this course surveys principal writers and works in American literature from colonial times to the present. In addition, students will continue to improve their writing, speaking, listening, and visual literacy skills. Students will read representative American literature including but not limited to *The Adventures of Huckleberry Finn*, *The Great Gatsby*, *Of Mice and Men*, *Our Town*, *The Crucible*. Additional texts may include, *Give a Boy a Gun*, *Tuesdays with Morrie*, *The Five People You Meet in Heaven*, *A Raisin in the Sun*, *Death of a Salesman*, and *The Scarlet Letter*.

HONORS JUNIOR LANGUAGE ARTS
1 Year
1 English credit

Prerequisite: Gr. 11
Teach. Recommendation

Students who sign up for this class are expected to possess an advanced writing aptitude, excellent time-management skills and a willingness to regularly use both. This rigorous course will present the student with a challenging range of American literary genres and styles. Students will have numerous opportunities to write analytical, expository, and persuasive essays as well as a research paper. Students will be expected to read quickly and independently for comprehension. Analysis will come through class interaction. We move forward thoughtfully but rapidly. There will be a required summer reading assignment, which will be incorporated into the first quarter assignments and grade. Failure to complete the summer work will not be grounds for transferring to a different class. Included in the summer reading assignment is an objective comprehension test over *The Grapes of Wrath*. This test will take place within the first several days of school and before class discussion of the novel. Required texts may include, but are not limited to, *The Grapes of Wrath*, *The Great Gatsby*, *The Adventures of Huckleberry Finn*, *Of Mice and Men*, *Our Town*, *Catcher in the Rye*, *The Crucible*, *Ethan Frome*, *The Sun Also Rises*, and *Long Day's Journey into Night*.

AP LITERATURE & COMPOSITION
1 Year
1 English credit

Prerequisite: Gr. 12
Teach. Recommendation
Fee: \$10

For the able and ambitious student in the senior year, this college-level course in literature and writing emphasizes participation in daily, seminar-structured discussions. All students enrolled may take the Advanced Placement Literature and Composition Examination in May for which college credit may be granted. Students should expect to purchase or borrow books for independent reading throughout the school year, including summer. Readings for this class will include but not be limited to *Hamlet*, *King Lear*, *Othello*, *Invisible Man*, *Frankenstein*, *The Importance of Being Earnest*, and *A Doll's House*. There may be a fee for this course if the class participates in the Great Lakes Shakespeare Residency. There will be a summer reading and writing assignment due in August. Failure to complete the summer assignment will have a negative impact on the first quarter grade but will not be grounds for dropping the course. This course follows the outline published by the College Board for AP Literature and Composition.

Any student enrolled in an AP course may take the AP exam in May for which college credit can be granted with a passing score of 3-5. Fee for the examination is traditionally \$84.00 and is in addition to the regular course fee. It is recommended that all students attempt the AP exam.

ADVANCED COMPOSITION
1 Semester
.50 English credit

Prerequisite: Gr. 12

This course requires the student to hone grammar, usage, mechanics, vocabulary, speech, research and composition skills necessary for college and career. The student will compose up to 12 compositions utilizing narrative, descriptive, persuasive, and/or expository elements culminating in a 10-15 page major research project. Since the course will emphasize revision and rewriting, self and peer evaluation as well as individual student/teacher conferences may be employed before the final stages of publication. Several of the compositions can be used for college application essays and/or scholarship essays. An additional ½ credit English elective must be completed during your high school career. **In order to graduate, students must pass Advanced Composition or AP Literature & Composition, during the students' senior year.**

COLLEGE BOUND LITERATURE
1 Semester
.50 English credit

Prerequisite: Gr. 11/12

Designed to encourage the reading and enjoyment of classical poetry, fiction, and non-fiction, this course will focus on a blend of British literature and student-selected longer texts. This course is an appropriate choice for students desiring excellent college preparation.

SENIOR LITERATURE
1 Semester
.50 English credit

Prerequisite: Gr. 11/12

As an alternative to College Bound Literature, this course is designed to encourage life-long reading for pleasure and will make allowances for varied reading levels and interests. Students will select their own books from a wide variety of texts. There is a non-fiction element to the course. Some available (not required) material may be controversial.

CREATIVE WRITING
1 Semester
.50 English credit

Prerequisite: Gr. 11/12
Teach. Recommendation

Be it science-fiction, fantasy, mystery, comedy, romance, or horror, this peer-centered writing course offers students the opportunity to explore their personal writing interests in a supportive atmosphere. In this workshop students will draft, revise, edit, and publish essays, short stories, scripts, lyrics and poetry. In addition to writing daily, participants will read contemporary and classic literary works for their thematic, technical, and artistic values. Students will use word processing and publishing software to prepare their writings for submission to school, local, regional, and national publications.

DEBATE I, II, III, IV
1 semester
.50 English credit

Prerequisite: Gr. 10/11/12
Fee: \$10-20

This challenging semester course is designed to prepare students for competition in two different debate formats: Public Forum and Lincoln-Douglas. The skills developed in this course will be very useful in the areas of law, politics, public policy, marketing, sales, communications, and life in general. You may know how to argue; come learn how to do it well. Within the past five years, our team has been to five consecutive state championship tournaments and two national championship tournaments. Now is your chance to join the fun and success. Some fees may apply, including but not limited to the school's "pay-to-participate" fee for those who wish to compete on the team. This course may be repeated for English credit.

*20.00 **Co-curricular** Pay to Participate fee applies and will be posted to your financial obligation. This fee is waived/reduced upon receipt of current Free/Reduced Lunch Verification Letter.

MYTHOLOGY & RELATED LITERATURE
1 Semester
.50 English credit

Prerequisite: Gr. 11/12

This course is a study of well-known Greek myths and the primary sources from which they originate. Poets which will be studied in this class include Homer, Ovid, Euripides and Aristophanes. Students of literature, art history, and theater will benefit from this course.

INTRODUCTION TO JOURNALISM
1 Year
1 English credit

Prerequisite: Gr. 9/10/11

This course prepares a student for placement onto Journalism Staff or Yearbook Staff. The students will learn journalistic writing, ethics and law, newspaper layout and yearbook production.

JOURNALISM - NEWSPAPER I, II, III
1 Year
1 English credit

Teach. Recommendation w/application

As a member of the journalism staff, students will produce the Medinamite. Students should be aware that this takes time outside of class to attend the various events and activities throughout the year. Additional time outside of class is often needed to complete the production aspect of the newspaper.

*20.00 **Co-curricular** Pay to Participate fee applies and will be posted to your financial obligation. This fee is waived/reduced upon receipt of current Free/Reduced Lunch Verification Letter.

JOURNALISM – YEARBOOK I, II, III
1 Year
1 English credit

Teach. Recommendation w/application

As a member of Yearbook staff, your job will be to produce the MHS's yearbook, the Medinian. Students will find themselves doing a variety of tasks such as interviewing students, writing, designing pages, and working on the computer on layout. Deadlines are important to yearbook, and students often find themselves working under the pressure of deadlines. In addition, all yearbook members are required to sell ads during the first quarter of the year. Ads sales are part of the first quarter grade.

*20.00 **Co-curricular** Pay to Participate fee applies and will be posted to your financial obligation. This fee is waived/reduced upon receipt of current Free/Reduced Lunch Verification Letter.

INTRODUCTION TO THEATER
1 Semester
.50 English credit

Prerequisite: None
Fee: \$20

Students will explore all aspects of theater against the backdrop of our performing arts center. Classes will be held in the Black Box Theater, which is a room with the same dimensions as the main stage. Activities for this class include viewing and critiquing plays, and analyzing and practicing aspects of acting, stage managing, and technical work. The culminating project will be the performance of a one-act play for an audience. Students taking this course are required to attend the other theatrical performances at the high school. Students may attend for free if they choose to usher. Students who choose not to usher must pay the regular student admission fees for the performances.

THEATER & ACTING I, II, III & IV
1 Semester
.50 English credit

Prerequisite: Intro. To Theater or
Teach. Recommendation
Fee: \$20

Students will study classical theatre up through the renaissance. Specifically, we will study the history of theatre as well as 1 play which is representative of the time period for each of the following periods: the Greeks, the Romans, Medieval Theatre, the Renaissance, and French Neoclassical Theatre. Works such as Aristotle's Poetics; Sophocles Oedipus/Antigone/Electra; Seneca's The Trojan Women; medieval morality plays like Everyman and The Second Shepard's Play; Shakespeare's comedy (Much Ado About Nothing) and tragedy (Othello or King Lear); and finally Moliere's Tratuffe or The Learned Ladies. The class would also incorporate acting in the form of scene work, monologues, and culminate in a presentation of dramatic mastery of each of the genres studied during the semester.

Students who continue with Theatre & Acting will begin by studying the playwrights and theatrical conventions of Restoration Drama (She Stoops to Conquer), move to the Rise of Realism in theatre—Ibsen/Strinberg, Bernard Shaw, and Russian Realism with Chekov. Finally, we will look at modern and contemporary American theatre by studying playwrights like August Wilson, Eugene O'Neill, Lillian Hellman, and Wendy Wasserstein. This class would also incorporate acting through scene work, monologue work, and culminate in the dramatic mastery of each genre studied.

MATHEMATICS

For appropriate placement in math classes, consult your current math teacher and your counselor.

Prerequisite (defined): If a grade in a course is called a prerequisite for another course, that grade must be achieved in each semester average before the second course can be taken.

Graphing calculators (TI 83 recommended) (\$90) are required for courses of Algebra II and higher. Calculators are not sold through the school.

Grade 9	Grade 10	Grade 11	Grade 12

TRANSITION TO HIGH SCHOOL MATH

Prerequisite: See below

**1 Year
1 Credit**

This course is designed to cover basic operations with real numbers to support a smooth transition in Algebra concepts. The class is for 9th graders.

Prerequisite: Recommendation of 8th grade teacher and failure of 8th grade achievement tests.

FUNDAMENTAL ALGEBRA

Prerequisite: See below

**1 Year
1 Credit**

This course will cover the same material as Algebra I and will include a review of skills and standards needed for the OGT. Topics covered will include order of operations with real numbers and the properties of algebra. Graphing on a number line and coordinate plane, equations and inequalities will be studied. The following topics will also be covered: solving systems of equations and inequalities, properties of exponents, radicals, and polynomials. In addition, students will solve quadratic equations and rational equations. Students will need a scientific calculator.

Prerequisite: Recommendation of 8th grade math teacher.

Note: Students who have received credit for Algebra I may not take Fundamental Algebra for credit.

ALGEBRA I
1 Year
1 Credit

Prerequisite: See below

The understanding of concepts and the acquisition of basic skills are important in the study of algebra. The student is guided in discovering algebraic principles through the use of varied exercises in number lines, variables, numerals, precision of language, open sentences, positive and negative numbers, linear equations, equivalent relations, and factors. The study of algebra is extended to include rational numbers, irrational numbers, graphing, ratio, variation, radicals, and quadratic equations.

Prerequisite: Recommendation of 8th grade math teacher

HONORS GEOMETRY
1 Year
1 Credit

Prerequisite: See below

A logical system of related truths is systematically developed from axioms and postulates to theorems and properties. The course includes all of the topics covered in Geometry and work in Trigonometry and related topics. However, the topics are covered in much greater detail, with more emphasis on proofs.

Prerequisite: Recommendation of 8th grade Algebra I teacher.

FUNDAMENTAL GEOMETRY
1 Year
1 Credit

Prerequisite: See below

This course is designed for the student who wishes to take some work in geometry but does not wish to take the rigorous exercises which are typical of the regular geometry course. It covers most of the same topics, however, the pace is slower and the depth of coverage is less. There is not as much emphasis on proof.

Prerequisite: "C" in Algebra I or Integrated Grade 9 Math.

GEOMETRY
1 Year
1 Credit

Prerequisite: See below

A logical system of related truths is systematically developed from axioms and postulates to theorems and properties of figures in space. The course includes the study of parallelism, congruence of triangles and lines in both plane and space. The logical structure of geometry is enhanced by the study of circles, spheres, analytic method of proof, slopes of lines, equations of circles, areas, and volumes of solid figures.

Prerequisite: "C" in Algebra I.

INTEGRATED MATH FOR OGT (GRADE 11)
1 Semester
.50 Credit

Prerequisite: See below

This course is designed for those students who did not pass the Mathematics portion of the Ohio Graduation Test. Emphasis will be placed on the review of skills necessary to meet the standards for math for the state test. This course is scheduled with an additional one credit Math course. There is a workbook fee of \$15.00.

Prerequisite: This course is for 11th and 12th graders who have not passed the mathematics portion of the Ohio Graduation Test.

HONORS ALGEBRA II**Prerequisite: See below****1 Year
1 Credit**

The study of fundamental laws of algebra is extended to include operations on polynomials, equations, and inequalities in variables, their interpretation on the number line, and other specified sets of elements. The study includes products, factoring, fractional equations, powers, roots of quadratic equations, real numbers, arithmetic and geometric sequences, and some study of trigonometry. A graphing calculator is required. The course will be taught using a TI 83 calculator (\$90). There will be summer work due at beginning of school year.

Prerequisite: "C" in Honors Geometry and recommendation of Honors Geometry teacher.

ALGEBRA II (A)**Prerequisite: See below****1 Year
1 Credit**

This course addresses the same subject objectives as Algebra II with Trigonometry but without the work in trigonometry. The course includes linear equations and inequalities, systems of equations and inequalities, matrices, and power and roots. The pace is slower than Algebra II with trigonometry and depth of coverage is less. Emphasis is on real-life application and the use of graphing calculators. A graphing calculator will be required. The course will be taught using the TI 83 (\$90).

Prerequisite: "C" in Integrated Geometry or Geometry and successful completion of Algebra I (C or better).

ALGEBRA II WITH TRIGONOMETRY**Prerequisite: See below****1 Year
1 Credit**

Description: The laws of algebra are extended to include fundamental operations on polynomials, equations, and inequalities. The pace will be much faster than Algebra II A. The study includes: linear open sentences, factoring, rational numbers, complex fractions, fractional exponents, relations, functions, irrational numbers, and quadratic equations. It is extended to include quadratic relations, exponential functions, logarithms, progressions, binomial expansions, polynomial functions, determinants, matrices, probability, and trigonometry. A graphing calculator is required. The course will be taught using a TI 83 (\$90).

Prerequisite: "C" in Geometry; A/B in Algebra I.

ALGEBRA II (B)**Prerequisite: See below****1 Year
1 Credit**

This course is designed for students who have completed Algebra II-A and want to continue to strengthen their math skills in preparation for college. The course will review skills necessary for college math, introduce new concepts (exponential and logarithmic functions, trigonometry, probability with statistics), and emphasis on use of calculators. This course is a continuance of Algebra II-A. This course will be taught using a TI 83 (\$90).

Prerequisite: "C" average in Algebra II-A.

PRE-CALCULUS**1 Year**
1 Credit**Prerequisite: See below**

This course is for the college-bound student. It covers material beyond Algebra and Geometry that could be a prerequisite to freshman college math courses. It includes studies of linear relations, functions, theory of equations, sequences, series, conic sections, probability, statistics, and an extensive coverage of trigonometry and its applications. The course will be taught using a TI 83 (\$90).

Prerequisite: "C" in Algebra II with Trigonometry.

HONORS PRE-CALCULUS**1 Year**
1 Credit**Prerequisite: See below**

This course prepares the student to enter standard courses in Calculus or Analytic Geometry with the use of vectors. The extension of algebraic principles includes conics, polar coordinates, parametric representation of curves and surfaces, determinants, mathematical induction, trigonometry, an intuitive approach to limits and continuity, elementary functions, elementary graph theory, probability and statistics. A graphing calculator is required. The course will be taught using a TI 83 (\$90).

Prerequisite: "C" in Honors Algebra II and recommendation of Honors Algebra II teacher.

CALCULUS**1 Year**
1 Credit**Prerequisite: See below**

The study of derivatives of a function, rates, and differentials, indefinite integrals, definite integrals, maxima, minima, exponential functions and trigonometric functions. Optional AP-AB Test. Graphing calculator TI 83 (\$90)

Prerequisite: "C" or better in Pre-Calculus or "C" in Honors Pre-Calculus.

AP MATH I**1 Year**
1 Credit**Prerequisite: See below**

(Analytic Geometry and Calculus, the AB course)

The study of derivatives of a function, rates, and differentials, indefinite integrals, definite integrals, maxima and minima, exponential functions and trigonometric functions, with special emphasis on rigorous proof and application to real problematic situations. A standardized examination taken upon completion of the course work is recommended. Current fee: \$84.00 for each examination taken. The course will be taught using a TI 83 (\$90). This course follows the outline published by the College Board for AP Math.

Any student enrolled in an AP course may take the AP exam in May for which college credit can be granted with a passing score of 3-5. Fee for the examination is traditionally \$84.00 and is in addition to the regular course fee. It is recommended that all students attempt the AP exam.

Prerequisite: "C" in Honors Pre-Calculus and recommendation of Honors Pre-Calculus teacher.

AP MATH II**Prerequisite: See below****1 Year****1 Credit**

(Analytic Geometry and Calculus, the BC course)

Calculus BC is a year course in calculus, considerably more extensive than Calculus AB. Additional topics are vectors, polar coordinates, extensive methods of integration, improper integrals, sequences and series (especially Taylor Series), and elementary differential equations. A standardized examination (BC) taken upon completion of the course work is recommended. Current fee: \$84.00 for each examination taken. The course will be taught using a TI 83 (\$90). This course follows the outline published by the College Board for AP Math.

Any student enrolled in an AP course may take the AP exam in May for which college credit can be granted with a passing score of 3-5. Fee for the examination is traditionally \$84.00 and is in addition to the regular course fee. It is recommended that all students attempt the AP exam.

Prerequisite: Recommendation of Calculus (AP Math I) teacher.

MUSIC

The Music Department offerings are comprised of performing groups in the areas of voice, strings, wind and percussion instruments. Participation in all music groups is for the **entire school year**. Concerts and public performances are required. Most music performances are paid admission.

Music Fees

Instrumental music fees are to be paid to parent groups as listed in each course description. Vocal music fees will be invoiced along with other fees listed in this registration guide.

MUSIC THEORY

1 Year

1 Credit

Music Theory is a full year course taught by the music faculty. It is the study of the components of music, analysis, sight singing, dictation and composition.

Prerequisite: Students must have a strong working knowledge of treble or bass clef.

INSTRUMENTAL MUSIC – BAND

Music Fees

Instrumental music fees are to be paid to parent groups as listed in each course description. Vocal music fees will be invoiced along with other fees listed in this registration guide.

Students wishing to participate in band must register for a combination of Marching/Concert Band, Marching/Concert Winds, Marching/Symphony Band or Concert band only. **ALL BANDS ARE FULL YEAR COURSES, REGARDLESS OF COMBINATIONS.** Students are required to participate in Concert Band, Concert Winds or Symphony Band to be eligible to participate in Marching Band.

Auxiliary members, Beeliners and Emerald Silks are the only students permitted to sign up for Marching Band (803922). All Beeliners and Emerald Silks participating in concert season should also register for Concert Band, Concert Winds or Symphony Band, with no marching. (803924, 803926 or 803928).

COURSE DESCRIPTIONS

Marching Band/Concert Band/Concert Winds/Symphony Band/Sr. Symphony Band

Required Fees:

\$50.00	Co-Curricular Pay to Participate fee applies and will be posted to your financial obligation. This fee is waived/reduced upon receipt of current Free/Reduced Lunch Verification Letter.
\$70.00	Payable to Medina Band Parents for uniform rental and dry cleaning.
\$35.00	Payable to Medina Band Parents to purchase bow tie, cummerbund and white tuxedo shirt.
\$30.00	Payable to Medina Band Parents to purchase black marching band shoes. Students required to provide own dress black shoes for concert season.

MARCHING BAND/ CONCERT BAND

**1 Year
1 Credit**

The Marching Band is organized three weeks prior to the start of the school year and continues through the first nine weeks of school. This group rehearses daily during the school day in addition to Tuesdays and Thursdays after school from 3-5 p.m. The Marching Band performs at all football games, band competitions, school and community parades, and band shows.

The Concert Band meets daily beginning the second nine-week grading period. A student must audition for placement during the month of October. This group is open to wind and percussion players in grades 9-12. Band literature is chosen from various periods of music history. The literature is appropriate to the instrumentation and developmental level of the membership. Sectionals for this group are held after school. There are several performances and adjudicated events throughout the year which students are REQUIRED to attend.

All students are required to provide their own **dress black shoes** for concert season.

Refer to the above for applicable fees.

MARCHING BAND/ CONCERT WINDS

**1 Year
1 Credit**

The Marching Band is organized three weeks prior to the start of the school year and continues through the first nine weeks of school. This group rehearses daily during the school day and Tuesdays and Thursdays after school from 3-5 p.m. The Marching Band performs at all football games, band competitions, school and community parades, and band shows.

The Concert Winds meet daily beginning the second nine-week grading period. A student must audition for placement during the month of October. This group is open to wind and percussion players in grades 9-12. Band literature is chosen from various periods of music history. The literature is appropriate to instrumentation and developmental level of the membership. Sectionals for this group are held after school. There are several performances and adjudicated events throughout the year which students are REQUIRED to attend. Rehearsal and performance schedules are assigned.

All students are required to provide their own **dress black shoes** for concert season.

Refer to the above for applicable fees.

**MARCHING BAND/
SYMPHONY BAND**

**1 Year
1 Credit**

The Marching Band is organized three weeks prior to the start of the school year and continues through the first nine weeks of school. This group rehearses daily during the school day and Tuesdays and Thursdays after school from 3-5 p.m. The Marching Band performs at all football games, band competitions, school and community parades, and band shows.

The Symphony Band meets daily beginning the second nine-week grading period. A student must audition for placement during the month of October. This group is open to wind and percussion players in grades 9-12. Band literature is chosen from various periods of music history. The literature is appropriate to the instrumentation and developmental level of the membership. Sectionals for this group are held after school. There are several performances and adjudicated events throughout the year which students are REQUIRED to attend.

All students are required to provide their own **dress black shoes** for concert season.

Refer to the above for applicable fees.

**CONCERT BAND/CONCERT WINDS
SYMPHONY BAND**

**1 year
.75 Credit**

These performing groups meet daily beginning the second nine-week grading period. They are open to the wind and percussion players in grades 9-12. A student must audition for placement during the month of October. Band literature is chosen from various periods of music history. The literature is appropriate to the instrumentation and developmental level of the membership. Sectionals for this group are held after school. There are several performances and adjudicated events throughout the year which students are REQUIRED to attend. Seniors will receive honors credit.

All students are required to provide their own **dress black shoes** for concert season.

Refer to the above for applicable fees.

AUXILIARIES

Beeliners/Emerald Silks

- \$50.00 **Co-Curricular** Pay to Participate fee applies and will be posted to your financial obligation. This fee is waived/reduced upon receipt of current Free/Reduced Lunch Verification Letter.
- \$200-\$300 Estimated cost for summer camp, uniforms, dry-cleaning, footwear, hooded sweatshirts, etc.

BEELINERS/EMERALD SILKS

9 Weeks

.25 Credit

These groups are open to students in grades 9-12 who are selected through auditions each spring. The auxiliaries have mandatory rehearsals one evening each week during the summer months from 6-9 p.m. All members are required to attend August band camp three weeks prior to school. During the first nine weeks, rehearsals are held daily during the school day and on Tuesday, Wednesday, and Thursdays **after school or in the evening**. These groups perform at all football games, band competitions, school and community parades, and band shows. The Beeliners will also perform at the P.C. Dance Festival and selected home basketball games.

INSTRUMENTAL MUSIC – BAND NON-CREDIT MUSIC OPPORTUNITIES

Required Fees:

- \$100.00 **Extra-Curricular** Pay to Participate fee applies. Students may not participate until this fee is paid. This fee is waived/reduced upon receipt of current Free/Reduced Lunch Verification Letter.
- \$20.00 Payable to Medina Band Parents for white tuxedo shirt. All students are required to provide their own black tuxedo pants and black shoes and socks.

JAZZ ENSEMBLE

No Credit

This organization is open to students in grades 9-12 who are concurrently participating in the band program. (Exceptions are made for piano and electric bass players.) It provides a culminating instrumental experience through the music of the Jazz idiom. Membership in this group is determined by audition. Rehearsal and performance schedules are assigned.

Required Fees:

- \$100.00 **Extra-Curricular** Pay to Participate fee applies. Students may not participate until this fee is paid. This fee is waived/reduced upon receipt of current Free/Reduced Lunch Verification Letter.
- \$20.00 Payable to Medina Band Parents for white tuxedo shirt. All students are required to provide their own black tuxedo pants and black shoes and socks.

STARDUSTERS

No Credit

This organization is open to students in grades 9-12 who are concurrently participating in the band program. (Exceptions are made for piano and electric bass players.) It provides a culminating instrumental experience through the music of the Jazz idiom. Membership in this group is determined by audition. Rehearsal and performance schedules are assigned.

Required Fees:

- \$100.00 **Extra-Curricular** Pay to Participate fee applies. Students may not participate until this fee is paid. This fee is waived/reduced upon receipt of current Free/Reduced Lunch Verification Letter.
- \$15-20 Purchase of white shirt.

PEP BAND

No Credit

This organization is open to students in grades 9-12 who are participating in the band program. This group rehearses on an as-needed basis and performs at selected home basketball games.

VOCAL MUSIC – CHOIR

Required Fees:

- \$50.00 **Co-Curricular** Pay to Participate fee applies and will be posted to your financial obligation. This fee is waived/reduced upon receipt of current Free/Reduced Lunch Verification Letter.
- \$30.00 Payable to Medina Choir Fund for Black Character Shoes.
- \$5.00-50.00 Showtime fees (costumes)

FRESHMAN CHORUS (Females)

1 Year

1 Credit

FRESHMAN CHORUS (Males)

1 Year

1 Credit

The Freshman Chorus is a mixed choir that meets daily. Freshman Chorus is for students who enjoy singing and working within the structure of a large performing group. This organization will study a wide variety of vocal music covering many different styles and historical periods, including musical theatre and pop literature. The year culminates with the SHOWTIME production. Basic vocal technique, and musicianship will be stressed in rehearsals. This chorus is the building block for the other six vocal music groups at Medina High School. **Students MUST sing for the high school choir director in order to be placed in this group.**

Students are REQUIRED to attend all concerts, which includes Showtime which is over Memorial Day weekend in May, and adjudicated events to complete the requirements of this course. Rehearsal and performance schedules are assigned.

FEES: Women are required to provide their own knee-length or below black skirt, white long sleeved blouse, and black colored pantyhose. **BLACK CHARACTER SHOES ARE REQUIRED.** Character shoes may be purchased from the choir department for approximately \$30 a pair.

Men are required to provide their own black dress pants, black socks, black dress shoes, a white long sleeved dress shirt and a tie.

ALL Students are required to provide their own uniforms for Showtime (spring show) production numbers. Fees can range anywhere between \$5 - \$50.

Required Fees:

\$50.00	Co-Curricular Pay to Participate fee applies and will be posted to your financial obligation. This fee is waived/reduced upon receipt of current Free/Reduced Lunch Verification Letter.
\$8.00	Robe rental/drycleaning fee.
\$30.00	Payable to Medina Choir Fund for Black Character Shoes.
\$5.00-50.00	Showtime fees (costumes)

CHORALE (Females)

1 Year
1 Credit

CHORALE (Males)

1 Year
1 Credit

The Chorale is a mixed choir that meets daily. This choir is open to any student in grades 10, 11 or 12 with the permission of the high school directors. In Chorale the students will continue to study vocal technique, and basic musicianship. A wide variety of choral music will be studied throughout the school year.

Students are **REQUIRED** to attend all concerts, which includes Showtime which is over Memorial Day weekend in May, and adjudicated events to complete the requirements of this course. Rehearsal and performance schedules are assigned.

FEES: All Students will be required to pay a robe rental/dry-cleaning fee of \$8.00 at the beginning of the school year.

Women: BLACK CHARACTER SHOES ARE REQUIRED. Character shoes may be purchased from the choir department for approximately \$30. Neutral colored pantyhose are also required.

Men: Black dress pants, black socks, black dress shoes, a white dress shirt, and a tie are required.

All Students are required to provide their own uniforms for Showtime (spring show) production numbers. **Fees can range anywhere between \$5 - \$50.**

Required Fees:

\$50.00	Co-Curricular Pay to Participate fee applies and will be posted to your financial obligation. This fee is waived/reduced upon receipt of current Free/Reduced Lunch Verification Letter.
\$8.00	Robe rental/drycleaning fee.
\$30.00	Payable to Medina Choir Fund for Black Character Shoes.
\$5.00-50.00	Showtime fees (costumes)

WOMEN'S CHORALE

1 Year
1 Credit

The Women's Chorale is a soprano/alto choir that meets daily. This choir is open to women in grades 10, 11, and 12. Students will continue to study vocal technique and basic musicianship. A wide variety of choral music will be studied throughout the school year. **Students must have the recommendation of the high school choir director in order to be placed in this group.**

Students are REQUIRED to attend all concerts, which includes Showtime which is over Memorial Day weekend in May, and adjudicated events to complete the requirements of this course. Rehearsal and performance schedules are assigned.

FEES: All Students will be required to pay a robe rental/dry-cleaning fee of \$8.00 at the beginning of the school year. **BLACK CHARACTER SHOES ARE REQUIRED.** Character shoes may be purchased from the choir department for approximately \$30 a pair.

Students are required to provide their own uniforms for Showtime (spring show) production numbers. **Fees can range anywhere between \$5 - \$50.**

Required Fees:

\$50.00	Co-Curricular Pay to Participate fee applies and will be posted to your financial obligation. This fee is waived/reduced upon receipt of current Free/Reduced Lunch Verification Letter.
\$80.00	Dresses purchased from the choir department.
\$30.00	Payable to Medina Choir Fund for Black Character Shoes.
\$8.00	Tuxedo jacket dry cleaning fee.
\$5.00-50.00	Showtime fees (costumes)

CONCERT CHOIR (Females)

1 Year
1 Credit

CONCERT CHOIR (Males)

1 Year
1 Credit

The Concert Choir is a mixed choir that meets daily. This choir is open to students in grades 10, 11 and 12 BY AUDITION ONLY. Participation in Concert Choir is for the advanced musician who has previous vocal or instrumental experience. Students will study advanced vocal techniques and will be expected to perform a wide variety of vocal literature. Seniors will receive honors credit.

Students are REQUIRED to attend all concerts, which includes Showtime in May, over Memorial Day weekend, rehearsals, and adjudicated events to complete the requirements of this course. Rehearsal and performance schedules are assigned.

FEES: Women: **BLACK CHARACTER SHOES ARE REQUIRED.** Character shoes may be purchased from the choir department for approximately \$30 a pair. Black concert dresses are required. Dresses will be purchased through the choir department for approximately \$80 each.

Men: A white tuxedo shirt, black tuxedo bow tie, black cummerbund, black tuxedo pants, black socks, and black dress shoes are required to be purchased on your own. Tuxedo jacket dry cleaning fee is \$8.

All Students are required to provide their own uniforms for Showtime (spring show) production numbers. **Fees can range anywhere between \$5 - \$50.**

Required Fees:

\$50.00	Co-Curricular Pay to Participate fee applies and will be posted to your financial obligation. This fee is waived/reduced upon receipt of current Free/Reduced Lunch Verification Letter.
\$80.00	Dresses purchased from the choir department.
\$30.00	Payable to Medina Choir Fund for Black Character Shoes.
\$5.00-50.00	Showtime fees (costumes)

WOMEN'S CHORUS

1 Year

1 Credit

The Women's Chorus is a soprano/alto choir that meets daily. Membership in Women's Chorus is open to any soprano or alto in grades 10, 11 or 12 BY AUDITION. Women who are members of the Concert Choir do not need to audition for this group, and may participate in both Women's Chorus and Concert Choir.

Although all styles of choral music will be sung by the Women's Chorus, an emphasis is placed on some of the finest acapella literature written for this type of ensemble. Singers will study advanced techniques and improve upon musicianship.

Students are REQUIRED to attend all concerts, including Showtime which is over Memorial Day weekend in May, and adjudicated events to complete the requirements of this course. Rehearsal and performance schedules are assigned.

FEES: BLACK CHARACTER SHOES ARE REQUIRED. Character shoes may be purchased from the choir department for approximately \$30. Black concert dresses are required. Dresses will be purchased through the choir department for approximately \$80 each.

All Students are required to provide their own uniforms for Showtime (spring show) production numbers. **Fees can range anywhere between \$5 - \$50.**

VOCAL MUSIC
NON-CREDIT MUSIC OPPORTUNITIES

MEN'S CHORUS (Early Bird)

Required Fees:

\$100.00	Extra-Curricular Pay to Participate fee applies. Students may not participate until this fee is paid. This fee is waived/reduced upon receipt of current Free/Reduced Lunch Verification Letter.
\$8.00	Blazer drycleaning fee
\$5.00-50.00	Showtime fees (costumes)

The Men's Chorus is a "non-auditioned" group, grades 9-12, which is open to all tenor and bass singers in any of the choirs. Instrumentalists who may not have an opportunity to schedule another choir are welcome. The Men's Chorus will perform at all scheduled concerts, including Showtime which is over Memorial Day weekend in May, adjudicated events, and may perform for civic and community groups. Sectionals and extra rehearsals are at the discretion of the director. All rehearsal and performance schedules are assigned.

FEES: There is a REQUIRED blazer dry-cleaning fee of \$8 at the beginning of the school year. All students are required to provide their own khaki pants, black socks, black dress shoes, and a long-sleeved dress shirt.

Students are required to provide their own uniforms for Showtime (spring show) production numbers.

ENCORE ENTERTAINMENT COMPANY

Required Fees:

- \$100.00 **Extra-Curricular** Pay to Participate fee applies. Students may not participate until this fee is paid. This fee is waived/reduced upon receipt of current Free/Reduced Lunch Verification Letter.
- \$5.00-50.00 Showtime fees (costumes)

This group is a small vocal ensemble selected from the Women's Chorus and Concert Choir BY AUDITION. This is an entertainment-oriented ensemble capable of presenting musical programs for school, community and civic groups. Members are encouraged to actively participate in the staging and showmanship of this organization. **A SPECIAL OUTFIT MUST BE PURCHASED BY EACH MEMBER OF THE GROUP.** The instrumentalists accompanying this group must be members of one of the high school instrumental ensembles and should be a member of one of the vocal ensembles (i.e., Concert Choir, Women's Chorus, or Chorale.) Private vocal instruction is strongly encouraged.

To maintain membership in this ensemble, students must participate in a Fall and Winter vocal recital, as well as keep their GPA above a 2.5.

Rehearsal and performance schedules are assigned. **Students are also required to provide their own costumes for Showtime (spring show) production numbers.** Fees can range anywhere between \$5-50.

INSTRUMENTAL MUSIC – ORCHESTRA

Required Fees:

- \$50.00 **Co-Curricular** Pay to Participate fee applies and will be posted to your financial obligation. This fee is waived/reduced upon receipt of current Free/Reduced Lunch Verification Letter.
- \$9.00 Tuxedo jacket dry cleaning fee. **(Payable to: The Friends of the Orchestra).**

STRING ORCHESTRA

1 Year
1 credit

The String Orchestra is open to students in grades 9-12 by permission of the director. Students study a wide variety of string orchestra literature in addition to instruction in string instrument technique and performance practice.

Students are **REQUIRED** to attend all concerts, rehearsals and adjudicated events to complete the requirements of this course. Rehearsal and performance schedules are assigned. In addition, a performance evaluation of selected literature will be required each grading period.

Concert attire: Females supply the required uniform according to the guidelines of the orchestra handbook dress code. This may require a purchase.
Males are issued tuxedo jackets and pants. Males provide the required accessories.

Required Fees:

- \$50.00 **Co-Curricular** Pay to Participate fee applies and will be posted to your financial obligation. This fee is waived/reduced upon receipt of current Free/Reduced Lunch Verification Letter.
- \$9.00 Tuxedo jacket dry cleaning fee. **(Payable to: The Friends of the Orchestra).**

SYMPHONY ORCHESTRA

1 Year
1 credit

The Symphony Orchestra is open to string, woodwind, brass and percussion players in grades 9-12 **by audition**. Auditions for new members are held early in the second semester of the previous year. The Symphony Orchestra meets every day and studies a wide variety of orchestral literature from all periods of music history that is musically and technically challenging. The Symphony Orchestra plays concerts for the public and student body.

Students are **REQUIRED** to attend all concerts, rehearsals and adjudicated events to complete the requirements of this course. Rehearsal and performance schedules are assigned. In addition, a performance evaluation of selected literature will be required each grading period.

Concert attire: Females supply the required uniform according to the guidelines of the orchestra handbook dress code. This may require a purchase.
Males are issued tux jackets and pants. Males provide the required accessories.

INSTRUMENTAL MUSIC – STRINGS
NON-CREDIT MUSIC OPPORTUNITIES

Required Fees:

\$100.00 **Extra-Curricular** Pay to Participate fee applies. Students may not participate until this fee is paid. This fee is waived/reduced upon receipt of current Free/Reduced Lunch Verification Letter.

CHAMBER ORCHESTRA
1 Year
No credit

Chamber Orchestra is an auditioned group made up of members of the Symphony Orchestra. This group rehearses once per week after school. This group performs for school and community events. Rehearsals and performance schedules are assigned by the director.

INDEPENDENT STUDY

GENERAL INFORMATION/MUSIC DEPARTMENT TRIPS

EXTRA EXPENSES MAY BE INCURRED IF A GROUP FROM THE MUSIC DEPARTMENT IS TAKING A TRIP OUTSIDE OF THE REGULAR PERFORMANCE SCHEDULE. SHOULD YOU BE A MEMBER OF A GROUP THAT IS TRAVELING, PLEASE NOTE THAT YOU MAY HAVE TO EARN MONEY TO PARTICIPATE.

HONORS BIOLOGY – FRESHMAN PLACEMENT

Students screened for Honors Biology placement as a freshman must have either a superior cognitive ability score of at least a 127 or an achievement composite score of at least 95% and a 95% or above on a nationally normed science achievement test. They must have completed Algebra I with a minimum grade of B and an A- or better in Science in their 7th and 8th grade classes. If they meet these requirements, students will be invited to take the 9th grade Accelerated Science Placement Test in the spring of their 8th grade year. In order to be placed in the class, students must achieve the required score on their placement test, pass the state science achievement test with an accelerated or advanced score and have an excellent work ethic.

PHYSICAL EARTH SCIENCE**1 Year**
1 Credit**Prerequisite: None****Fee: \$6.00**

This course involves a study of Earth, space, and physical science topics. The content of the course will include strands of the Ohio Graduation Test. Topics of study will relate to Earth, space, and physical science benchmarks. The course will emphasize theory, evidence, concepts, and cycles that relate to matter, the Earth, and planetary makeup. A variety of teaching strategies, methods, and assessments will be used. **Course fee: \$6.00.**

LIFE SCIENCE**1 Year**
1 Credit**Prerequisite: Teach. Recommendation****Fee \$14.00**

This course is designed for those students whose past performance in ninth grade science indicates that they will require special attention in order to pass the Ohio Graduation Test. Topics in Life Science are aligned with Ohio State Standards in science. An applied science, Life Science introduces the student to cellular processes, heredity, various plant and animal groups, and their impact on the environment. The major methods used to study these areas are laboratory exercises and media presentation. Students must have the signature of their freshman science teacher to enroll in this course. This course may not be taken if you have passed Biology.

BIOLOGY**1 Year**
1 Credit**Prerequisite: Phys. Earth Science****Fee: \$14.00**

This course is designed as a survey of the major branches of biology. Biology introduces the student to cellular processes, heredity and genetic principles, microbiology, and various plant and animal groups and their impact on the environment. This course is aligned with the Ohio State Science Standards to meet requirements for the OGT. This course is structured so students may assimilate information in a variety of ways: reading, lab work, dissection, computer work, media presentation, and lecture. This course may not be taken if you have passed Life Science.

HONORS BIOLOGY**1 Year**
1 Credit**Prerequisite: See below****Fee: \$14.00**

This course emphasizes the close relationships among cells, organisms, and the biochemical processes that enable them to exist. Benchmarks associated with the Ohio Graduation Test will be thoroughly covered. There are nine major topics woven throughout the course: 1) Diversity of Life; 2) Science as Inquiry; 3) Cell Structure and Function; 4) Biochemical Processes; 5) Genetic Principles; 6) Evolution; 7) Taxonomy and Classification; 8) Microbiology; 9) Relationships of Structure and Function in Organisms. This course requires students to assimilate information in a variety of ways: reading, lab work, computer programs, lecture, and long-term projects. Emphasis is placed on problem-solving and critical thinking exercises. The bulk of a student's grade is based on test performance. Although most of the material is also covered in the general course, this course goes into much greater detail. Dissection of animals is a major lab component in the spring. There is a lab fee.

Prerequisite: (Placement as a freshman requires meeting additional placement criteria) "A" average on tests in Physical Science; Algebra I; "B" average or above with teacher's recommendation on schedule from 9th grade Science teacher.

AP BIOLOGY
1 Year
1 Credit

Prerequisite: See below
Fee: \$25.00

This course follows the College Board's recommendations for a survey of Biology including: 1) Molecules and Cells; 2) Heredity and Evolution, and 3) Organisms and Populations. This course has been aligned with state graduation tests. This course is highly content intensive and students are expected to do independent learning. Further independent learning is required for AP test candidates. Lab fees will cover both required AP labs as well as additional supporting labs. Students are expected to do independent reading and presentations as a vital component of the course. This course follows the outline published by the College Board for AP Biology.

Any student enrolled in an AP course may take the AP exam in May for which college credit can be granted with a passing score of 3-5. Fee for the examination is traditionally \$84.00 and is in addition to the regular course fee. It is recommended that all students attempt the AP exam.

Prerequisite: Junior or Senior standing; having received a "B" or better in Biology or "C" or better in Honors Biology; having received a "C" or better in Chemistry

CHEMISTRY
1 Year
1 Credit

Prerequisite: See below
Fee: \$12.00

Modern chemistry has as a major goal the functional understanding of the basic concepts and theories relative to matter and its makeup. There is a step-by-step development of the ideas involved in the organization of chemistry; atomic structure; chemical formulas and equations; solutions; chemical reactions and stoichiometry. Emphasis is placed on the experimental laboratory approach. A scientific calculator is required.

Prerequisite: Successful completion of Honors Biology or two years of high school science; at least "C" in Algebra I; completion of Algebra II or concurrent enrollment.

HONORS CHEMISTRY
1 Year
1 Credit

Prerequisite: See below
Fee: \$17.00

The composition, structure, and properties of matter and the changes it undergoes will be studied. The topics are similar to that in regular Chemistry except covered in greater detail. *This course will be geared for students who are seriously pursuing a science and/or math related field in college.* The course will rely heavily on the student's skills in mathematics and their ability to succeed in laboratory situations. A scientific calculator is required.

Prerequisite: Received a "B" or better in Honors Biology; Received and "A" in Algebra I & Geometry or "B" or better in Honors level course; Concurrent enrollment in Algebra II w/Trig (or higher course).

AP CHEMISTRY**1 Year****1 Credit****Prerequisite: See below****Fee: \$25.00**

This course will follow The College Board's objectives. AP Chemistry is designed to be the equivalent of the general chemistry course taken during the first college year. For some students, this course enables them to undertake, as freshmen, second-year work in the chemistry sequence at their institution or to register for courses in other fields where general chemistry is a prerequisite. The following topics (and corresponding percentages) reflects the main topics and the proportions of questions that appear on the examination: **Structure of Matter (20%); States of Matter (20%); Reactions (35-40%); Descriptive Chemistry (10-15%); and Laboratory (5-10%)**. This course is for students seriously considering pursuing a career in chemistry or careers that rely heavily on Chemistry.

Any student enrolled in an AP course may take the AP exam in May for which college credit can be granted with a passing score of 3-5. Fee for the examination is traditionally \$84.00 and is in addition to the regular course fee. It is recommended that all students attempt the AP exam.

Prerequisite: Minimum "B" grade in Honors Chemistry or an "A" in Chemistry with teacher recommendation: Minimum "A" grade in Algebra II w/Trig or "B" or better in a higher course..

PHYSICAL SCIENCE**1 Year****1 Credit****Prerequisite: See below****Fee: \$8.00**

A third year science course that covers the major topics and concepts of chemistry and physics. Designed for those students who want an alternative to the traditional chemistry and physics course offerings. Topics include the structure of matter, physical states of matter, chemical and physical changes, energy, forces, work, and simple machines. This course may be taken prior to Chemistry and/or Physics, but not taken after these courses.

Prerequisites: Successful completion of two years of science and at least a "C" in Algebra I.

INTEGRATED SCIENCE (Junior Level)**1 Year****1 Credit****Prerequisite: See below****Fee: \$10.00**

This is a comprehensive third-year course that covers all ninth and tenth grade OGT standards with an emphasis on chemistry, biology, earth, space, and physics concepts. Topics of study will include the structure of matter, energy, force and work, ecosystems, and consumer science. Students must have the signature of their previous science teacher. **There may be additional fees for supplemental materials. Students do not register for this course; they are assigned by the department chair and/or their guidance counselor.**

Prerequisite: Completion of Physical Earth Science and Biology or Life Science. Required for students who have not met OGT standards.

PHYSICS
1 Year
1 Credit

Prerequisite: See below
Fee \$6.00

This is an introductory, one-year physics program that presents a core of clear, concise ideas in a logical historical sequence using a multi-media approach. This course is based strongly in mathematics. Besides "pure physics," the course shows how physics connects with other sciences, particularly astronomy and chemistry, and includes aspects of the philosophy and history of science that put the development of the major ideas of physics into a humanistic and social context. The course includes motion concepts, motion in the heavens, mechanics, light, sound, electricity, and magnetism. There is a lab fee. A scientific calculator is required.

Prerequisite: At least a "C" in Algebra I and Geometry.

AP PHYSICS "B"
1 Year
1 Credit

Prerequisite: See below
Fee: \$6.00

This course follows the outline published by the College Board for AP Physics B in both content and lab requirements. The objective of this course is to prepare students to take the College Board's Advanced Placement B Exam near the end of the school year. The course is designed to closely follow the College Board outline: NEWTONIAN MECHANICS, 35%; FLUID MECHANICS AND THERMAL PHYSICS, 15%; ELECTRICITY AND MAGNETISM, 25%; WAVES AND OPTICS, 15%; ATOMIC AND NUCLEAR PHYSICS, 10%. Students who score well on this exam can test out of college physics or earn advanced placement. This course will involve the use of calculators, computers, and computer interfaced lab equipment. This course is suggested for students who may be considering a career in engineering, technology, computers, medicine, and other related fields. Lab fee \$6.00. This course follows the outline published by the College Board for AP Physics.

Any student enrolled in an AP course may take the AP exam in May for which college credit can be granted with a passing score of 3-5. Fee for the examination is traditionally \$84.00 and is in addition to the regular course fee. It is recommended that all students attempt the AP exam.

Prerequisite: At least a "B" in Algebra II with Trigonometry or Honors Algebra II.

ENVIRONMENTAL SCIENCE
1 Year
1 Credit

Prerequisite: See below
Fee: \$10.00

Environmental Science is a lab science that introduces students to four major areas of study: 1) Natural History - field studies of local plant and animal communities; 2) Environment and Man - the interaction of man and his surroundings with an emphasis on the problems arising from increasing human population, pollution, and resource use; 3) Principles of Ecology - the relationship of organisms, populations, communities, and ecosystems; 4) Environmental Toxicology - the structure, interactions, and effects of toxic agents on living systems.

Prerequisite: Completion of Physical Earth Science and Biology, or Life Science and having passed the OGT Science test.

AP ENVIRONMENTAL SCIENCE**1 Year****1 Credit****Prerequisite: See below****Fee: \$30.00**

This course follows the college recommended AP curriculum. The course is designed to provide students with the scientific principles, concepts, and methodologies required to understand the interrelationships of the natural world, to identify and analyze environmental problems both natural and man made, to evaluate the relative risks associated with these problems, and examine alternative solutions for resolving and/or preventing them. This course will focus on the “real science” behind environmental problems and issues. Laboratory and field studies are an important element in this course. The land area of the school grounds becomes an area of study as well as other off-campus sites. This course follows the outline published by the College Board for AP Environmental Science.

Any student enrolled in an AP course may take the AP exam in May for which college credit can be granted with a passing score of 3-5. Fee for the examination is traditionally \$83.00 and is in addition to the regular course fee. It is recommended that all students attempt the AP exam.

Prerequisite: Successful completion of Honors Biology or at least two years of a lab science, and one year of Algebra.

SOCIAL STUDIES

**Social Studies Dept.
Required & Elective Course Offerings**

8th Grade	9th Grade	10th Grade	11th Grade	12th Grade

Available Electives

11th Grade	12th Grade
AP American History	AP American History
AP Psychology	AP Psychology
Human Behavior	Human Behavior
Human Relations	Human Relations
Contemporary American Affairs	
OGT Contemporary American and European Affairs	

FRESHMAN U.S. HISTORY 1877-PRESENT**Prerequisite: Gr. 9****1 Year
1 Credit**

This class is a survey of United States History with an emphasis on 1877 (post Civil War) to the present. This course is designed to prepare students for the Ohio Graduation Test in social studies. Skill development (becoming a stronger writer, a more forceful speaker, a more critical thinker) will be emphasized as well as the traditional content mastery. Successful passage of both the Ohio Graduation Test and this class are required by the state of Ohio for graduation. Freshman U.S. History is a **required freshman** course.

SOPHOMORE WORLD HISTORY 1750-PRESENT**Prerequisite: Gr. 10****1 Year
1 Credit**

World History 1750-Present is a survey course that examines the course of human history from the Enlightenment through to the fall of the Berlin Wall. The Industrial, French and Scientific Revolutions will lead to global conflicts that dominate the 20th Century and students will understand the concepts of nationalism and imperialism as they have impacted regions around the world.

Skill development, - thinking, writing, listening and speaking - as well as content retention are emphasized throughout the course.

HONORS EUROPEAN HISTORY (Grade 10)**Prerequisite: See below****1 Year
1 Credit**

From the Renaissance to the present, explore the progression of Western Culture. Students will delve into the roots of European cultural traditions politically, economically, and socially. Much greater depth and breadth about Europe's past, including an arts component should be anticipated. In addition, students will strengthen their academic skills, especially their research and writing skills. For students seeking a change and a challenge, this might be the right class.

Prerequisite: Students will need a grade of "A" in their first semester United States History class and/or a teacher recommendation. Priority will be given to students who have a grade of "A" on the first semester United States History exam.

CONTEMPORARY AMERICAN & EUROPEAN AFFAIRS (OGT PREP, Grade 11)**Prerequisite: Dept. Placement****1 Year
1 Credit**

A prep course to assist students to successfully pass the Ohio Graduation Test and fulfill one of the new state requirements for high school graduation. Within the context of current and historical topics, students will sharpen their reading, writing, thinking, and test-taking skills. American History, government, economics, and European History will be briefly surveyed to enhance student subject mastery and successful OGT test preparation. Also, practice OGT's will be analyzed to familiarize students with Ohio Graduation Test expectations and examination format. **Students do not register for this course; they are assigned by the department chair and/or their guidance counselor.**

CONTEMPORARY AMERICAN AFFAIRS (Grade 11)**Prerequisite: Gr. 11****1 Year
1 Credit**

Be on the cutting edge of news breaking events and gain an understanding of what is happening in *your* world today. Read, write, think, and talk about everything current from the Supreme Court to space shots to hottest cultural trends. From the military to music and movies to Medina, investigate the women and men (*young and old*) who make things happen. Sharpen your skills and get a grip on what is making the country go, the world turn, and why. And how this impacts your world and your future. The topics will change every day, but your understanding of them will continue to grow throughout the year. If you are an inquisitive, hardworking junior, this is the place for you. This course may have a fee of approximately \$10.00.

AP AMERICAN HISTORY**Prerequisite: 11/12
Teach. Recommendation****1 Year
1 Credit**

This Advanced Placement course encompasses the traditional American History curriculum from George Washington to George Bush. From Civil War to Civil Rights. From Rock & Roll to the women's movement, and more. In addition, students will learn exciting new study techniques; work at becoming more critical thinkers, more persuasive speakers, stronger, more effective writers, and better time managers. If you want to learn more American History than you ever thought possible, compete in the *National History Day Contest*, and gain valuable preparation for the AP test in May, this is the course for you. This course follows the outline published by the College Board for AP American History. There will also be a summer reading requirement.

Any student enrolled in an AP course may take the AP exam in May for which college credit can be granted with a passing score of 3-5. Fee for the examination is traditionally \$84.00 and is in addition to the regular course fee. It is recommended that all students attempt the AP exam.

CIVICS**Prerequisite: Gr. 12****1 Semester
.50 Credit**

This course exposes students to all levels of American government in order to make them responsible and informed citizens. A major goal is to involve students in participatory activities. Civics also compares the United States' system with other political models, and includes a practical look at the law and the student's relation to it. Civics is a **required senior** course, unless you take AP Political Science.

AP POLITICAL SCIENCE**Prerequisite: Gr. 12
Teach. Recommendation****1 Semester
.50 Credit**

This course fulfills the senior civics requirement. Emphasis is placed on skill development as well as content mastery. Students will delve into all facets of government and politics, from George Washington to George Bush. From landmark Supreme Court decisions, to civil rights, civil liberties and everything in between. For those who desire to know how things work and why, and be on the cutting edge of "what's happening inside the beltway", this course is for you. The class will also focus on preparation for the AP Test in May. A very manageable and enjoyable summer reading and film component is required. This course follows the outline published by the College Board for AP Political Science.

Any student enrolled in an AP course may take the AP exam in May for which college credit can be granted with a passing score of 3-5. Fee for the examination is traditionally \$84.00 and is in addition to the regular course fee. It is recommended that all students attempt the AP exam.

ECONOMICS
1 Semester
.50 Credit

Prerequisite: Gr. 12

This course offers students an overview of the American economy and their place in it nationally and internationally, individually, and collectively. The micro component deals with the basic economic problem, supply and demand, the firm, factor markets, and government. The macro side examines economic systems, the American economy, and world economics. The student will be asked to use skills in critical thinking, communication, organization, and research to study the stock market, financial planning, entrepreneurship, and related areas. Economics is a **required senior** course, unless you take AP Microeconomics.

AP MICROECONOMICS
1 Semester
.50 Credit

Prerequisite: Teach. Recommendation

This course fulfills the senior economics requirement. It is designed to augment the regular economics course by providing a comprehensive analysis of microeconomics. The student will be required to do a considerable amount of outside reading (collegiate level). The student will be asked to use skills in critical thinking, communication, organization, and research to analyze and apply basic microeconomic concepts and theory. Students with a serious interest in business as a career should consider this course. Students may also have an opportunity to prepare for the advanced placement test in microeconomics. This course follows the outline published by the College Board for AP Microeconomics.

Any student enrolled in an AP course may take the AP exam in May for which college credit can be granted with a passing score of 3-5. Fee for the examination is traditionally \$84.00 and is in addition to the regular course fee. It is recommended that all students attempt the AP exam.

HUMAN BEHAVIOR (Psychology)
1 Semester
.50 Credit

Prerequisite: 11/12

In this introductory psychology course students will investigate the workings of the human mind. While sharpening their reading, writing, speaking, and thinking skills, students will examine human behavior and what contributes to personality development. Students will delve into such topics as emotions, motives, attitudes, instincts, and discover why people behave the way they do. For mature students with inquiring minds, this one semester course is usually taken in conjunction with **Human Relations**. (Sociology).

HUMAN RELATIONS (Sociology)
1 Semester
.50 Credit

Prerequisite: 11/12

Sociology introduces students to the interactions of people in contemporary society. Students will explore group functions, how they interrelate in the societal framework, and their impact on today's society. Students will sharpen their reading, writing, speaking and critical thinking skills as they examine such topics as socialization, U.S. and world cultures, gender roles, and society's changes over time. For mature students with inquiring minds, this course usually is taken in conjunction with **Human Behavior** (Psychology).

AP PSYCHOLOGY**1 Year****1 Credit****Prerequisite: 11/12
Teach. Recommendation**

AP Psychology is designed to introduce students to the exciting exploration of the human mind. There will be a systematic and scientific study of the behavior and mental process of human beings and other animals. Students will be exposed to the psychological facts, principles, and phenomena associated with each of the major subfields within psychology, today. Students will also survey the ethics, methods and experiments psychologists employ in their fields of study. Students, who are willing to accept the challenge of rigorous academic study and outside readings in preparation for class and the AP test in May, should seriously consider this course. This course follows the outline published by the College Board for AP Psychology.

Any student enrolled in an AP course may take the AP exam in May for which college credit can be granted with a passing score of 3-5. Fee for the examination is traditionally \$84.00 and is in addition to the regular course fee. It is recommended that all students attempt the AP exam.

INDEPENDENT STUDY IN THE SOCIAL STUDIES

Students apply through the department chairperson and school principal to enroll in "SSIS." Any social studies teacher may advise and/or sponsor a student for this enrichment/acceleration activity. Credits are usually 1 or 1/2 based on the scope of the work involved. IS projects are evaluated by both written and spoken performances that must be approved by the department head and principal in advance.

SPECIAL SUPPORT PROGRAMS

***SPECIAL EDUCATION**

1 Year

Credits as appl.

The special education program provides a continuum of services and is designed for students with specific learning disabilities in one or more of seven categories as designated by federal law. Placement in this program is determined following a multi-disciplinary evaluation by school personnel. Intervention support provides remedial assistance in the student's area of educational need, as well as academic support for regular education classes. Another option may be essential classes which provides instruction and content adapted to meet students' educational needs. In all programs, an individual educational plan is developed for each student, stating annual goals and short-term objectives. These goals cover the range of individual academic achievement, personal and social adjustment, and work-study opportunities.

EMOTIONAL DISTURBANCE (ILC)

1 Year

Credits as appl.

Students are involved in the ED program by IEP placement. Involvement ranges from all day to an as-needed tutoring situation. The goal of the program is to increase the student's success in a variety of classroom experiences as well as work study and MCCC enrollment.

***FUNCTIONAL LIFE SKILLS – MH/CD**

I, II, III, IV

1 Year

1 - 4.5 Credits

The functional life skills program is individually designed for students who demonstrate multiple handicaps. Placement in the program is determined by a multi-disciplinary evaluation by school personnel. The program consists of supervised vocational and community-based experiences which parallel classroom instruction. The goal of this program is successful functioning as an adult in every day community experiences.

COGNITIVE DISABILITY SERVICES (CD)

Students are involved in the CD program by IEP placement. The extent of involvement varies based on individual educational needs. The goal of the program is to prepare the student to function independently.

***WORK-STUDY PROGRAM**

WORK SERVICES

1 Year

1 - 3 Credits

The work-study program provides supervised job training experiences for students with disabilities. They are given opportunities to work in various job stations receiving supervision and feedback. Students may be placed on in-school job stations, or training stations within the community for part time or full time employment. The goal of the work study program is successful community job experiences and full time employment after graduation.

****These courses are not included in the calculation of grade point average.***

ESSENTIAL STUDY SKILLS**1 Year****.50 Credit**

Essential Study Skills focuses on developing study skills within the context of supporting students in their academic classes. Throughout the year students are introduced to different study strategies/techniques. In addition, support is offered in their core academic classes and remediation is provided in individuals' areas of need. Placement is determined through a multi-fractured evaluation.

CAREER BASED INTERVENTION PROGRAMS

The Career Based Intervention Program (CBIP) is designed to provide a meaningful career-oriented educational program for at-risk students. The program combines job experience with work-related classroom experience. Students participating in the Career Based Intervention Program are enrolled in all classes necessary for graduation.

The program offers up to three elective credits per year for time spent on the job (1 credit per 160 hours of work.)

Prerequisite: Counselor referral and completed program application are required. Admission to the program requires an intake process that reviews student needs and explains the requirements of the CBI Program.

MEDINA COUNTY CAREER CENTER

Medina High School juniors and seniors have the opportunity to attend the Medina County Career Center, offering over 23 career technical programs along with a wide variety of college prep electives and academics.

Students who intend to enroll at the Career Center must have completed two years of high school and should plan ahead to be sure they are earning all necessary credits required for graduation and/or college entrance.

Through the combination of advanced technical education, college-prep academics and industry-based certifications, students leave the Career Center with the skills they need to pursue a career and/or further their education at the university level. Students will receive their diploma from Medina High School and a Technical Certificate from the Career Center.

Busing to and from the Career Center is provided by the Medina City School District and is subject to the same rules that govern busing for high school students in the district. Students take part in all Medina activities, and are eligible for all honors, scholarships and benefits.

Arts & Media Communications Majors

Graphic Art & Printing Technology
Multi-Media / Digital Design

Commercial/Residential Construction & Landscaping Systems Majors

Building Trades
Carpentry
Heating, Ventilation and Air Conditioning (HVAC)
Landscape Design & Turf Management

Computer Information Systems Technology Majors

Computer Science & Forensics
E-Commerce Specialist
Engineering Technologies & Design
Software Engineering & Web Development

Health, Wellness & Public Safety Majors

Animal Management & Care
Chef & Restaurant Management
Cosmetology
Diversified Medical Technologies
Early Childhood Education
Public Safety
Sports Fitness Training
Teacher Education Academy

Transportation & Industrial Technology Majors

Auto Collision Technology
Automotive Technology
Commercial Truck & Equipment Technology
Power Equipment Technology
Precision Machining Technology

Non Recruitment Programming – ½ day option only

Culinary Arts & Textile Services (by associate school referral)
Custodial Maintenance (by associate school referral)

ACADEMIC OFFERINGS

In addition to the technical programs offered at the Career Center, the following academic credits are available in each Career Major:

ENGLISH

Advanced English (1 credit)
British Literature (1 credit)
English: The Teenager/Young Adult (.5 credit)
English III (1 credit)
Introduction to Fiction (.5 credit)
Journalism (.5 credit)
Speech (.5 credit)

MATHEMATICS

Algebra I (1 credit)
Algebra II (1 credit) (college credit possible)
Calculus (1 credit)
Comprehensive Math (1 credit)
Geometry (1 credit)
Integrated Mathematics (1 credit)
Math Analysis (1 credit)

SOCIAL STUDIES

American Government (.5 credit)
American History (.5 credit)
Economics (.5 credit)
Comprehensive Economics (.5 credit)
Comprehensive Government (.5 credit)
Psychology (.5 credit)

Sociology (.5 credit)

SCIENCE

Advanced Physics (1 credit)
Anatomy and Physiology (1 credit)
Advanced Biology (1 credit)
Chemistry (1 credit)
Comprehensive Science (1 credit)
Environmental Science (1 credit)
Fundamentals of Aeronautics (Physics) (1 credit)
Health Bio-Chemistry (.5 credit)
Integrated Science (Physical Science) (1 credit)
Physics (1 credit)

ELECTIVES

Computer Technology I (.5 credit)
Computer Technology II (.5 credit)
(HTI) Home Technology Integration (2 credits)
Literacy (.5 credit)
Personal & Professional Financial Planning (.5 credit)
Professional Development for the Workplace (.5 credit)
Spanish I, II, III, IV (1 credit)
Technology Bootcamp (.5 credit)
