

# Honors Chemistry

## 11/22/10 - 11/23/10

### Monday

6.3 – Ionic bonding and compounds (p. 176-180)

Objectives:

1. Compare and contrast a chemical formula for a molecular vs an ionic compound
2. Discuss the arrangement of ions in crystal
3. Define lattice energy
4. Compare properties of ionic and molecular compounds
5. Write Lewis structures for polyatomic ions

### Tuesday

6.3 continued

### Wednesday

Thanksgiving Break

### Thursday

### Friday
